## NUTRIENTS FOR COVID-19 PREVENTION & TREATMENT

### IODINE

#### [Iodine Intake to Reduce Covid-19 Transmission and Mortality](#)

- April 2020

- Project: [Covid-19, coronavirus](#)

#### **Abstract**

A preliminary technical report here showed evidence that increasing our iodine intake within safe levels might be sufficient to help against covid. This report adds subsequently identified information that conclusively shows that raising our iodine intake within safe levels will fully supply the body with amounts that it needs to fight covid in three ways: (1) on the skin before you touch your face, (2) in your nasal passages before you are infected, and (3) if infected, by helping kill infected cells that are replicating the virus. The evidence is replete in the literature, including reasons why the information is not public via the government or mainstream media. This paper summarizes this all and suggests grassroots action.

There is overwhelming evidence backed by research that the COVID-19 virus can be safely and effectively inactivated by molecular iodine, the biocidal component of povidone-iodine. [D. Scott Trettenero, DDS](#) Dentistry IQ.

PRESENTER: Dr. Herb Moskowitz

DESCRIPTION:

A new generation of super-iodines is being developed with proven anti-virucidal activity against SARS-CoV-2. This course will analyze the efficacy and safety of current anti-microbial rinses and introduce the latest generation of rinses under development. Upon the completion of this webinar, you will be provided with evidence-based studies showing the most effective rinses to protect both patients and staff.

Dr. Herb Moskowitz is the Chairman and Co-Founder of ioTech International. He is the co-author of ioTech's U.S. patent and global patent applications. He previously founded and served as Chairman and CEO of Advanced Tissue Sciences and Life Medical Sciences, two publicly traded medical technology companies. He has also practiced clinical dentistry for more than 25 years and is a graduate of the University of Tennessee Dental School.
