

## Pathologist Claims Coronavirus is “The Greatest Hoax Ever Perpetrated on an Unsuspecting Public”

Hodkinson’s comments were made during a discussion involving the Community and Public Services Committee in Edmonton, Alberta in November.

“ **The bottom line is simply this:** There is utterly unfounded public hysteria driven by the media and politicians. It’s outrageous. This is the greatest hoax ever perpetrated on an unsuspecting public. There is absolutely nothing that can be done to contain this virus. Other than protecting older, more vulnerable people. It should be thought of as nothing more than a bad flu season. This is not Ebola. It’s not SARS. It’s politics playing medicine and that’s a very dangerous game.

**There is no action of any kind needed** other than what happened last year when we felt unwell. We stayed home, we took chicken noodle soup, we didn’t visit granny and we decided when we would return to work. We didn’t need anyone to tell us.

**Masks are utterly useless.** There is no evidence base for their effectiveness whatsoever. Paper masks and fabric masks are simply virtue-signaling. They’re not even worn effectively most of the time. It’s utterly ridiculous. Seeing these unfortunate, uneducated people – I’m not saying that in a pejorative sense – seeing these people

walking around like lemmings, obeying without any knowledge base, to put the mask on their face.

**Social distancing is also useless** because COVID is spread by aerosols which travel 30 meters or so before landing. Enclosures have had such terrible unintended consequences. Everywhere should be opened tomorrow as well as was stated in the Great Barrington Declaration that I circulated prior to this meeting.

**And a word on testing:** I do want to emphasize that I'm in the business of testing for COVID. I do want to emphasize that **positive test results do not, underlined in neon, mean a clinical infection.** It's simply driving public hysteria and all testing should stop. Unless you're presenting to the hospital with some respiratory problem.

**All that should be done is to protect the vulnerable** and to give them all in the nursing homes that are under your control, **give them all 3,000 to 5,000 international units of vitamin D every day** which has been shown to radically reduce the likelihood of Infection.

And I would remind you all that using the province's own statistics, **the risk of death under 65 in this province is one in 300,000.** You've got to get a grip on this.

The scale of the response that you are undertaking **with no evidence for it** is utterly ridiculous given the consequences of acting in a way that you're proposing. **All kinds of suicides, business closures, funerals, weddings etc.** It's simply outrageous! It's just another bad flu and you've got to get your minds around that.

**Let people make their own decisions. You should be totally out of the business of medicine. You're being led down the garden path by the chief medical officer of health for this province. I am absolutely outraged that this has reached this level. It should all stop tomorrow.**

---

Hodkinson's impeccable credentials are affirmed by the MedMalDoctors website: "He received his general medical degrees from Cambridge University in the UK (M.A., M.B., B. Chir.) where he was a scholar at Corpus Christi College. Following a residency at the University of British Columbia he became a Royal College certified general pathologist (FRCPC) and also a Fellow of the College of American Pathologists (FCAP). He is in good Standing with the College of Physicians and Surgeons of Alberta, and has been recognized by the Court of Queen's Bench in Alberta as an expert in pathology."
