

Rise Up New Hampshire Newsletter

Monday, August 16, 2021

Happy Monday! Why happy you might ask? Because happiness (or blithe spirit, or good humoredness...) in the face of insanity is both an act of courage and of centering oneself in true reality. :-)

Here's what's going on....

Zoom Zoom @ 1pm

We'll be continuing our previous conversations at 1pm today about what's happening as the globalists' narrative continues to go off the rails (find a few tidbits below), and what we can do about it. Paradigms Lost and Found Podcast Launch

Frank Natoli and I have launched our first *Paradigms Lost and Found* podcast episode, [Fake Money, Real Gifting](#), continuing on from our [Follow the Money](#) conversation in March). Here, we pick up with more current analysis of the "elephant in the pandemic tent" - the globalists' attempt at a financial coup/reset, i.e., their ongoing boondoggle with the entire population of Earth. We hope you'll find it both fun and edifying.

Teen Group Forming

Our student-led group is dedicated to stand up for Americans and for constitutional rights. We are especially concerned about the rise of medical tyranny and suppression of freedom of speech. We are also concerned about the groupthink among our like-minded peers and are dedicated to educating young Americans on their rights and responsibilities as citizens of America. Contact Skyler

at skyercope@icloud.com or Althea at altheaburnham8@gmail.com to get more information or get the signal code to join our group.

Learn Organic Gardening

Fertile Fields Farm in Westmoreland is open to having one or two people who want to learn and participate in growing organic food. Come to the farm once a week (usually half a day) with a provided prepared lunch. 16 years of age or older please. In exchange for your time at the farm you will leave with an increased knowledge of growing food and a nice basket of produce for the week. Contact Lori Schreier at 603 399-7772 or email schreierlori@aol.com. This is not an employment situation but more of an educational experience of skill building and hands on learning.
