You'll not want to miss the story we heard yesterday of NH Veteran Chris Martin from Pembroke, who was put on a ventilator a month ago and is fighting for his life while his wife Jennifer fights to get him on different medication or out of Dartmouth Hitchcock Medical Center all together. (She was kicked out of DHMC Sunday night). Click on the image above to watch the zoom recording where Jennifer shares the more of this harrowing story, and see their [GoFundMe page here](#).

NH DHHS and Federal Vax \$\$ - Worse than you thought

Page 17: To accept Covid funds states [the recipient] ...agrees, as applicable to the award, to: 1) comply with existing and/or future directives and guidance from the Secretary regarding control of the spread of COVID-19; 2) in consultation and coordination with HHS, provide, commensurate with the condition of the individual, COVID-19 patient care regardless of the individual's home jurisdiction and/or appropriate public health measures (e.g., social distancing, home isolation); and 3) assist the United States Government in the implementation and enforcement of federal orders related to quarantine and isolation.

If NH takes the funds and the Secretary says we have to enact a door to door vaccine push, we have to. If the Secretary says unvaccinated need to be put in "quarantine" camps, we have to.

TONIGHT: Let's show up to help Londonderry parents & taxpayers at school board meeting:

Date and time: Tuesday, 09-21-2021 at 7pm

Location: Londonderry High School cafeteria at 295 Mammoth Rd, Londonderry, NH 03053

Contact if you have questions: Julie Keiran at 603-820-9423

Julie's Facebook: <https://www.facebook.com/julz.keiran> **Message from Julie Keiran:**

We need some help in Londonderry! We had 2 school board members resign and we are now being faced with the school board deciding who they want in these seats. There is 1 remaining person on the board that is a listener to the voters and taxpayers, and is fair... the other 2 members are aligned and partial and very opinionated and ready to hire these seats to people in line with their views. So as you know... 2 against one... these 2 chairs will get

their people in and effectively override the public and place their chosen ones into the seats. We tried writing a petition to halt the interviews and vote, but it was disregarded and the Londonderry district Lawyer declared that it is not something we can halt with a petition. They conducted the interviews anyways....and convened to make the actual vote on this Tuesday Sept 21st at Londonderry High School cafeteria Please! If anyone can attend this meeting to show numbers we need it! Desperately! This is a fight for our children and numbers would make an impact. If you can't attend, watch the meeting Tuesday at 7pm (I will put the link in the comments) and help advise or even just reach out and advise me, I am open to any and all help/suggestions I can get. Us parents bombard them all with emails to no avail, this is a tyranny right now and there is a lot at stake We are by far the majority at this meeting, but nothing has worked this far, maybe if we pack the house full for once, it would make an impact. The meeting will start with them voting with no public input or comment. Once the vote is over, it opens to public comment.

Action Alert: Call for Investigation into Dr. Anthony Fauci and his Agency's Role in Gain-of-Function Research • Children's Health Defense

New documents released via FOIA litigation confirms what Senator Paul has been asserting for months. Dr. Anthony Fauci lied to Congress about funding "Gain-of Function" research in Wuhan, China when he insisted that the U.S. "has not ever, and does not now fund gain-of-function research in the Wuhan Institute of

Monadnock Freedom Conference

Over 75 people came together last Saturday in Swanzey for the first-ever Monadnock Freedom Conference. A great time was had by all and many good connections were made. Breakout sessions covered everything from big tech-proofing your tech devices, various ways to prep, and how to build soil biome in your garden or farm, to constitutional law, sovereignty, vaccines and the law, super immunity, and much more (see the full program [here](#)).

We'd like to thank: the presenters/discussion leaders of the various breakout sessions for the gift of their time and talents; the many volunteer staff for help in setting up, managing registration, preparing and sharing food and drink, managing childcare, and staying afterwards for cleanup; and all those who trekked out on a beautiful September day to share and network. It was a very inspiring day all around.

This southern US COVID hospitalization chart is eye-opening. Did a roaming gang of infected hoards blaze a trail from Texas to Florida across six states w/ diff NPIs & vax rates? @MartyMakary @MonicaGandhi9 @BallouxFrancois

Arkansas, Louisiana and Mississippi have had different mask rules at different times and followed the exact same curves anyway, but the good news is that the more data we have showing how useless mask mandates are, the more mandates we get

U.S. FREEDOM/ANTI-FREEDOM MATRIX. State-by-state laws & orders: Vax Passports, Vax Mandates, Mask Mandates. Mostly falls on party lines. Multiple sources consulted, listed; not perfect but close. Note the caveats. Advise if errors for update. Likely turbulence ahead (Biden/OSHA).

The image features a collage of mathematical content overlaid on a background of a woman's face. The content includes:

- Top Left:** A circle with radius r . Formulas: $A = \pi r^2$ and $C = 2\pi r$.
- Top Center:** A cone with height h and radius r . Formula: $V = \frac{1}{3} \pi r^2 h$.
- Top Right:** A cylinder with radius r . Formula: $V = \pi r^2 h$.
- Bottom Left:** A table of trigonometric values for 30° , 45° , and 60° .

	30°	45°	60°
sin	$\frac{1}{2}$	$\frac{\sqrt{2}}{2}$	$\frac{\sqrt{3}}{2}$
cos	$\frac{\sqrt{3}}{2}$	$\frac{\sqrt{2}}{2}$	$\frac{1}{2}$
tan	$\frac{\sqrt{3}}{3}$	1	$\sqrt{3}$

 Below the table is a right-angled triangle with angles 30° and 60° , and sides x , $x\sqrt{3}$, and $2x$.
- Bottom Center:** A graph of $\tan(\theta)$ vs θ/rad . The y-axis ranges from -5 to 10, and the x-axis ranges from -5 to 5. The graph shows a vertical asymptote at $\theta = \frac{\pi}{2}$.
- Bottom Right:** Algebraic formulas:
 - $ax^2 + bx + c = 0$
 - $a(x^2 + \frac{b}{a}x + \frac{c}{a}) = 0$
 - $x^2 + 2\frac{b}{2a}x + (\frac{b}{2a})^2 - (\frac{b}{2a})^2$
 - $(x + \frac{b}{2a})^2 - \frac{b^2 - 4ac}{4a^2} = 0$
