Today's Keene Protest at CMC (not Central Square)

Word is that tomorrow is Cheshire Medical Center's last day for employees to take the jab or take a hike. We'll be converging there for our protest this afternoon at 4PM.

Tomorrow (Friday) 5PM: The Corvid Chronicles with Gene

Glerkin

On Friday, October 8 at 5PM, Keene's (and our board member) Gene Clerkin will be offering a selection of songs he wrote starting at the beginning of the pandemic in 2020. This is intended as a fundraiser for several groups, including Health Freedom NH and Rise Up NH (aka Collaborative Communities Coalition). Join Gene on [Facebook Live](#) or [YouTube Live](#).

From RebuildNH:

CO-SIGN THE LETTER SAY NO TO FEDERAL CONTROL

✓ **MAINTAIN** New Hampshire
sovereignty

✓ **NO vaccine database
expansion**

✓ **NO new vaccine
propaganda bureaucrats**

**CLICK HERE
TO SIGN
BELOW ↓**

Dear Councilors and Members of the Fiscal Committee:

We the undersigned along with the executive board of RebuildNH, urge you to **reject** the combined \$27 million in grants for the purpose of propaganda and implementation of the COVID-19 vaccination system and the vaccination registry.

Accepting these funds would force New Hampshire to comply with the following untenable requirements as stated in the contract:

Please sign and ask your friends and neighbors, too:

<https://reopennh.com/rally/letter-to-oppose-federal-dhhs-funding/>

Help us reach the People of NH so they understand their sovereignty is at stake. We will not be subject to the whim of the federal HHS Secretary on any COVID-related issues. We will NOT sacrifice our rights for Uncle Sam's 30 pieces of silver. No federally-forced quarantines, no federally-mandated vaccine passports, or whatever the Biden regime can think up.

RebuildNH treasurer JR Hoell will deliver a copy of all co-signed letters to the next Executive Council meeting on October 13, 2021, where we expect the DHHS contracts may be taken off the table and voted on.

From Health Freedom NH:

It's time to **END MUNICIPAL WATER FLUORIDATION.**

**Equivalent legislation
passed committee in 2019
with bipartisan support.**

HB 611: abolishing fluoridation in water.

Pending an October committee vote, please write or call now!

COMMITTEE INFO: [Res, Rec & Dev Committee](#)

REPS: [Find Your Reps](#)

If your local representative happens to be on this committee, write the word '**constituent**' in the subject line of your email or mention that when you call.

Email the committee and ask them to vote Ought to Pass (OTP) on HB 611. Keep emails short and simple. Make your points in your own words and try to stay away from the fringe. Keeping our messaging on the right track is key.

"I shouldn't have to buy an expensive filter to have pure water."

"If people want fluoride it's cheap and available at the dentist, in dental products, and in tablet form."

"My neighbors should not be able to vote to medicate my water."

"There is no way to control dosages."

Don't forget, it's easy to follow legislative bills with us at hfnh.org/bills.

Friday 8-9:30PM: Bitcoin & cryptocurrency. What the bleep is that? Free online workshop

A lot of people think Bitcoin and other cryptocurrencies are complicated, technical, and difficult to use and understand. It doesn't have to be that way. It's like your tv. You don't need to know how it works. You just want to know how to use your remote.

Recording of Monday's Zoom: Intro to Prepping

Monday community chat featured Vermont violin maker Nathaniel Rowan's introductory take on survival preparation. Watch it here: <https://riseupnh.org/weekly-zoom/> and stay tuned for a more in-depth, in-person class to be offered locally soon.

Note: Due to Monday's Holiday, there will be no Zoom on October 11

Dr. Richard Fleming's Nuremberg II Presentation

Dr. Richard Fleming gives a tour-de-force slide presentation concerning the COVID 'vaccine' -- and the criminal aspects of the outbreak. In the final half-hour, Dr. Fleming makes an in-depth case for prosecuting the players in this debacle, all the way down to the level of judges and doctors, who did NOT escape prosecution during the post-WWII Nuremberg trials.

Please consider sharing this video and Fleming's petition far and wide:

Dr. Peter McCullough: Winning The War Against Therapeutic Nihilism & Trusted Treatments Vs Untested Novel Therapies

A not-to-be-missed takedown of the CDC and NIH (and regular doctors). Please share with your normie friends and family. Click [here](#) or on the image below to watch this powerful presentation.

Let's do this!

Rise Up New Hampshire

A Project of the Collaborative Communities Coalition

If you've made it this far and you are thinking of giving up, remember this...

They are squeezing you because they know you're weak. They know if they squeeze, you'll cave.

When you don't hand yourself over, they freak out and squeeze harder.

The longer you hold out, the crazier they get.

The crazier they get, the crazier they look.

The crazier they look, the more people notice.

The more people notice, the more people wake up.

The more people wake up, the more fearful they become.

The more fearful they become, the crazier they get...

The crazier they get, the more people wake up...

And on and on until they essentially destroy themselves.
