Weekly Keene Protest to Move to Area Towns

We've decided to take our protest to different towns around the Monadnock Area so that more people get to see and understand that there are folks standing for a different narrative.

Next Thursday, 11/18, we're going to be at the intersection of Rt 12 and Rt 119. Troy circle from 3:30-5PM. Park at the Antiques building. There's a grassy area at the intersection. Stay tuned for new town TBA each week.

If you are in a different area of the state, please consider starting a protest regularly in a town near you. Please contact me if you'd like help getting others there.

Reflections on Troy Protest yesterday...

Yesterday @15 to 20 people held a rally on the Troy Common from 3:30 to 5:15 PM. The feedback from travelers, drivers and passersby was, as many of us have been noting at recent gatherings, overwhelmingly positive. If you see us out rallying ever we appreciate your waves, thumbs ups but especially horn honks and vocal support of things like "Let's go

Brandon!" LOL.

Some potential helpful takeaways from yesterday's event: There was some question by local Troy Public Servants as to whether a permit for the rally was required. Organizers respectfully asked for citation of any ordinances or statutes supporting any such requirement. Constructively working together it was determined there was no local ordinance but that the Town did have an Event Permit form that did cite NH RSA 286:4. Paraphrasing/ summarizing this statute, it essentially states that a municipality can/ should require a permit for "events" that taxpayers resources would be expended at in attempt to make taxpayers whole and/ or to address liability issues. The Troy Common is used for events such as this sometimes, for example if or when Troy's historical society holds town wide flea market events. Local law enforcement agreed with us that this was not such an event and that we were just a New Hampshire Constitution Article 32 assembly. The text of this article of New Hampshire's powerful Constitution is as follows: "[**Rights of Assembly, Instruction, and Petition.**] The People have a right, in an orderly and peaceable manner, to assemble and consult upon the common good, give instructions to their Representatives, and to request of the legislative body, by way of petition or remonstrance, redress of the wrongs done them, and of the grievances they suffer. --June 2, 1784."

Hope to see you in Fitzwilliam next week.

What's Really Happening in COVIDland

October was our 20th month of COVID. Ten months were in the fear year, 2020; ten months the injection year 2021. Jabs began mid-December.

In the USA, as of October 31, 2021, there were 768,920 deaths with COVID in 20 months (wordometers.info/coronavirus). The death count as of December 31, 2020 was 346,790. There were 422,130 deaths with COVID in 10 months of the injection year 2021. This is a 15% INCREASE in deaths though we spent more than \$3.5 trillion dollars on COVID mitigation. New Hampshire did better, fear year 827, jab year 770 a 9% decrease, still a pathetic result. Cheshire County, where I live, had 7 in 2020 and 42 in 2021 as of 10/31 (six times as many!!!); law enforcement should investigate this, imho.

The USA, with less than 5% of world population, had 51% of the world's active cases, at 10/31/21. Why? Never a medical professional of any sort, my best guess as a statistician and

careful observer (MIT mathematics graduate 1973, Columbia Business School MBA 1991, former actuary) is: 1) too many tests with too many false positives, 2) systemic medical malpractice, 3) a “vaccine” that does significantly more harm than good, and 4) rampant corruption, greed, and fear - irresponsibility, cowardice, and dishonesty.

COVID is far less dangerous than most people think. No one in NH under 20 years old has died with COVID in the 20 months. Yet we have “vaccine” mandates in some colleges, and Sununu and others are going after the 5-to-11 year-olds. On April 29th, 2021, at the Governor’s press conference, Beth Daly of NH DHSS told us that only “one or maybe two” (out of 1303 then) had died in New Hampshire with COVID if under age 65 with no comorbidities.

Two state senators from Oregon, Kim Thatcher and Dennis Linthicum, have formally requested the DOJ to impanel a grand jury focused on CDC and FDA statistical fraud and criminality. They composed a refreshingly clear and informative [document](https://standforhealthfreedom.com/wp-content/uploads/2021/09/Exhibit-A-Formal-Grand-Jury-Petition-Synopsis.pdf?fbclid=IwAR2mA8C0uR52g3hi1cBBS0-QGvSnzeSjJJ-m6MRfwYj6Ulq0RuVt9tv0XrY):
