News from RebuildNH:

Ban on vaccine mandates gets "Ought to Pass" recommendation on bipartisan vote

Thanks to everyone who turned out to testify, sign support, and email their thoughts to the House Education Committee, the amendment to HB255 passed on a bipartisan vote of 11-8. The amendment would prohibit any entity in NH from compelling anyone to receive a Covid-19 vaccine against their will.

Please email and thank the committee for their vote:

HouseEducationCommittee@leg.state.nh.us

Rep. Rick Ladd (Haverhill) introduced the amendment to a standing ovation from the crowd present. The public hearing was overwhelmingly attended by people in support of the amendment, while the handful of opposition mostly consisted of paid lobbyists. It was clear today that this was The People vs. The Lobbyists.

NEXT STEPS: The bill will be voted on at the first House session of the year on January 5th. If it passes, it will then move to the Senate before heading to the governor's desk. Soon, we will do an all-out effort on the full House members. Stay tuned!

Fiscal Committee Caves to Fed's \$22.5M Bribe

From Andrew Manuse: The NH Legislative Fiscal Committee voted 6-4 to accept the federal money to promote vaccines. Reps Morse and Umberger went for the money, and deserve serious blowback for this. Reps Edwards, Urf, Daniels, Guida were on our side. **The money funds school nurses to vaccinate children at school without prior notice.** ACTION RECOMMENDED: contact school boards and request prior notice so you can keep your children out of school or... pull your children out of school. *More info coming soon.*

Leah Cushman writes: A six year old was vaccinated in Brattleboro Vermont against his parents wishes. They wrote that they declined on the consent form.

Update on the Noble 9 Arraignment

This morning, the 9 peaceful hearing attendees who were arrested without cause by the Governor on October 13, received a restraining order which bars them from participating in any event with the Governor. Bail was not removed. We anticipated this as the Governor is badly exposed with this move. I guess Justice is not blind after all, except selectively.
