

Newsletter 11-29-21

Please join us on zoom at 1PM today [{{{HERE}}}](#) as we continue our community conversations on navigating the Upside-Down World as municipalities once again move towards imposing restrictions. These conversations are an important touchstone for building our connected consciousness for manifesting the better world we know in our hearts is possible.

Prepping and Priming "System B"

**Sat Dec 4
1-4PM
Swanzey NH**

Free or Donation

There's still time to grab your ticket for our "Prepping & Priming System B" on Saturday December 4 in Swanzey.

Are you ready for winter in light of the growing supply chain disruptions? What about food, water, heat, fuel, health care, communications? Join us for an information-packed session on various aspects of prepping for winter and beyond, and moving our communities towards parallel and relocalized/decentralized systems of production and support ("System B"). Take your personal preparedness inventory and network with others around the area and state.

Featuring Nathaniel Rowan and John Yannacci covering prepping basics, Peggy Schaffler sharing home remedies, Josh Coffin sharing about communications cells and tech privacy, and others sharing their knowledge base. Melissa Creem from the NH Liberty Alliance will also be on hand to discuss this coming year's elections for the NH Legislature. There will be

opportunities to join discussions law and money and other aspects of System B.

The event will feature several rounds of full-group sessions interspersed with networking/mini-discussion opportunities on various topics. We will also demo the VCAL website.

The event is open to anyone in the state or region.

On-site childcare is available at an extra cost (partial support available upon request) - please visit the [CHILDCARE SIGNUP PAGE](#).

This event doubles as a fundraiser for the VCAL (Voluntary Civic Action League), our private alternative social network and group projects website, to support the costs of our virtual private server (which enhances security and speed) and web development. Please donate what you can for tickets. Free tickets are also available if you cannot afford to donate.

From RebuildNH:

Children Are At Risk of Vaccination Without Parental Consent

With the passage of the \$22.5 million contract with the federal government, DHHS is now actively organizing "vaccine clinics" at New Hampshire's schools. Here are some actions you can take to stop this:

- [Contact DHHS Commissioner Lori Shibinette](#) and let her know she needs to put measures in place to ensure children are not "vaccinated" without a parent present to add an additional layer of protection to the "vaccination" program.
 - [Contact your state representative\(s\)](#) and advise them of any problems you encounter with the "immunization" program and your children
-

Let's do this!

John-Michael

KBirb @birb_k · Nov 27

Omicron - Looks like a big yawner in South Africa, so obviously it's time to trash liberties & freedom in North America, Europe, and elsewhere. Why, you ask? You're not supposed to ask.
