Ask Gov. Sununu To Call Legislature Into Special Session With New OSHA Rules Slated for Jan. 4, The Legislature Must Meet to Legally Defend NH Workers

OSHA has issued its Emergency Temporary Standard for COVID-19 vaccination and testing for all employers with 100 employees or more. **Jab or no job: the deadline for 84 million employees is January 4!** You can read more about the new rules at the following link: <https://www.osha.gov/coronavirus/ets2>

Please contact Governor Sununu and ask him to call a special session of the Legislature.

The House has two bills that can help:

1. A bill to prohibit state agencies from aiding in enforcement of the mandates.
2. A bill to standardize exemptions for religious, medical, and conscientious reasons so anyone can be exempt. An employee would submit a signed written statement of which exemption they are claiming, and the employer must grant it, period.

The Legislature does not have the two-thirds vote needed, because of its slim Republican majority, to call itself into Special Session, but the Governor has the Constitutional authority to call the Legislature into session himself, and we think he should.

Please contact Gov. Sununu today and ask him to protect New Hampshire workers' freedom to choose their own medical interventions and protect their bodily autonomy, particularly when their religious beliefs are conflicting with national policy.

Here's how to get in touch with the governor:

DEATHS PER 1M

Sweden now ranks 54th in the world in COVID deaths per million, with no masks, no vaccine passports and no strict lockdowns.

Remarkable how little we hear about them these days isn't it?

COP26 is about setting up the financial infrastructure for a completely new economic system based on CBDCs and the financialization of "natural capital" and "human capital" into new asset classes. It's about complete economic domination of the planet, not about "saving" it.
