From ReopenNH:

Ask the Senate to Do the Right Thing

Civil Liberties Are In Danger After Senate Committee Strips Meat Out of Freedom Bill

As the Legislative Session for 2022 starts to heat up, we bring you a matter of pressing concern that is top of our agenda for the upcoming Legislative session. We hope you join us by supporting our effort to pass [the House language to HB 440](#) and several other important measures this year.

Rep. Jim Kofalt proposed [HB 440](#) in 2021 in response to the governor's abuse of New Hampshire's emergency power laws and interpretations by state courts that said the governor can suspend civil liberties during a State of Emergency. His bill passed the House in April [in a form that we fully support](#). Sadly, the bill was retained in the Senate over the summer and fall and now a Senate Committee has proposed stripping out key sections of the bill that would render it practically useless. [Here is the Senate Committee's proposed amendment](#).

In an executive session on Dec. 14, [the Senate Judiciary Committee](#) took up the bill and stripped out its core legal substance. The committee then sent the eviscerated remains of the bill to the Senate floor, where the Senate will likely hold a full vote on Jan. 5. It's important that we act now and call on our senators to restore the original substance of HB 440; namely, sections four through seven, through a floor amendment. We'd prefer, of course, the entire House bill to be passed as is; namely sections one through eight, and that can be accomplished if the Senate simply rejects the committee amendment and passes the underlying bill.

[Cornerstone](#)'s Attorney and Policy Director Ian Huyett has been instrumental in assisting Rep. Kofalt with the legal construction of his bill as well as its promotion through the Legislature. [Please consider his opinion on the matter published last week in the NH Journal](#).

Following your research, please **EMAIL THE SENATORS** and ask them to pass the House version of HB 440, or at least Sections 4-7 (**ATTENTION!** please copy and paste these emails into the BCC field of your email client. Clicking on the email link WILL NOT WORK for some people):

Chuck.Morse@leg.state.nh.us, William.Gannon@leg.state.nh.us,
Tom.Sherman@leg.state.nh.us

Here's a sample email to give you an idea on how to begin your letter to the Senators:

Dear Senators,

It is unconscionable that in 2020 state courts interpreted New Hampshire's emergency powers laws as allowing the governor to suspend the NH Constitution and civil liberties during a state of emergency. As the most powerful branch of government, it is necessary for the Legislature to strongly rebuke this misinterpretation by the court and to decisively and thoroughly clarify the law. HB 440 as passed by the House does these things, but the Senate judiciary committee's

amendments have neutered the effort to protect future infringement of our rights. Please restore and pass the language of HB 440 that was passed by the House.

UPCOMING: Join Us In Our Fight to Protect Liberty In NH

Two House retained bills will be coming up for a vote by the whole House as soon as January 5, and we urge you to [contact your Representative\(s\)](#) and urge their support of these two critical efforts:

- [HB 275](#) is the result of the negotiation between Freedom Caucus House Members and the governor (and Senate) in exchange for their vote to support the budget in 2021. We have reviewed the language and agree that it has satisfied our understanding of the agreement. Should HB 275 become law as is, it would consummate the deal we supported. The bill would only allow the governor to renew a State of Emergency three times before the Legislature would have to meet to extend it. The Legislature could also meet to end it sooner. If the Legislature chose not to meet to extend it, it would end automatically after 84 days. Once the bill is passed by the House, it would need to be approved by the Senate and signed by the governor.
- [HB 255](#) would create a conscientious exemption to a vaccine mandate for individuals that every public and private entity in New Hampshire would be required to honor. Should this bill become law, it represents government doing precisely what it was designed to do; namely, protecting the inherent rights of individuals from more powerful, abusive players in society. It also recognizes that many private businesses are currently under the power of government actors behind the scenes who are pressuring them to introduce vaccine mandates, and these businesses need legal protection from this behind-the-scenes government coercion. The Individual liberty of bodily autonomy is our paramount concern, and every other right ought to be subject to it. If we are not free in our persons, then we are not free at all.
