RebuildNH Calls for Action

 **SUPPORT HB1466:** Many health providers will not consider prescribing safe, effective drugs (like ivermectin) for the treatment of COVID-19 because they fear disciplinary action by licensing boards. This bill would protect doctors from disciplinary action for prescribing approved, off-label medication. Read more here.

 Click here to email the HHSEA Committee

 Attend the hearing: Tuesday, January 11, 11:30 am – Legislative Office Building, Room 210-211

 **SUPPORT SB288:** This bill would prohibit schools or child care agencies from requiring a COVID-19 vaccination.

 Email the Committee Members: Jeb.Bradley@leg.state.nh.us, James.Gray@leg.state.nh.us, Tom.Sherman@leg.state.nh.us, Becky.Whitley@leg.state.nh.us, Kevin.Avard@leg.state.nh.us, Cameron.Lapine@leg.state.nh.us

 Attend the hearing: Thursday, January 13, 9:30 am – NH State House, Representatives Hall

 **OPPOSE SB319:** This bill requires that all employer-provided health insurance plans offer discounts to employees for being vaccinated for COVID-19 at the time of enrollment.

 Email the Committee Members: Jeb.Bradley@leg.state.nh.us, James.Gray@leg.state.nh.us, Tom.Sherman@leg.state.nh.us, Becky.Whitley@leg.state.nh.us, Kevin.Avard@leg.state.nh.us, Cameron.Lapine@leg.state.nh.us

 Attend the hearing: Thursday, January 13, 10:30 am – NH State House, Representatives Hall

 **SUPPORT HB1089:** This bill would make any noncompete agreements unenforceable if an employee is terminated for noncompliance with a vaccination mandate.

 Click here to email the House Labor Committee

 Attend the hearing: Thursday, January 13, 1:30 pm – Legislative Office Building, Room 305-307

 **NOTE:** You can email the committee and call the committee members, but the attending hearings and testifying in person is the most impactful means of winning legislators' votes. Do what you can!

RebuildNH Executive Director Melissa Blasek updates activists on the highlights of the first week of the 2022 legislative session. Includes wins on religious liberty and state of emergency reform, but losses for health freedom.

5G Bill

A terrific bill is being introduced in Concord on wireless radiation which will require 500 meters minimum setbacks (1640 ft) for telecommunications antennae from residential areas, schools, day cares, hospitals, etc. as well as a registry of residents experiencing symptoms. It would be a game changer if NH passes this as other states could follow suit. Can you write a letter in support to the Committee before Jan 18? See details below or better yet come testify for the hearing on HB1644 before the Science and Tech Committee on Tuesday, January 18 at 9:00am at the Legislative Office Building room 306-308. This building is behind the State House in Concord. The hearing is scheduled for two hours. Please confirm you will be there to testify, and thank you for your consideration. You can contact Lori Schreier of Riseup if you want to car pool or have questions: schreierlori@aol.com

Science Says... Natural Immunity Following Severe COVID-19 is Superb...

Survivors of Severe COVID-19 Take Heart. More data needed on Mild Cases Due to Likelihood of PCR False Positives.

Clay Travis ✓ @ClayTravis · 1h

The CDC director just said over 75% of “covid deaths” occurred in people with at least four comorbidities. Since Biden can’t shut down covid, suddenly all this data is getting shared publicly.

At first, I didn't believe he said that. But he did.

Listen to him saying it here in French bit.ly/3eXVb79

"We are going to end this pandemic by proceeding with the vaccination... There is still a part of the population fiercely against it. They don't believe in science or progress and are very often misogynistic and racist... They take up some space. This leads us, as a leader and as a country, to make a choice: DO WE TOLERATE THESE PEOPLE?"
