Well, [Keene finally ended it's mask mandate \(again\)](#), with the unexpected tie-breaker vote coming from the mayor himself. Meanwhile, Trudeau has cracked down on "them Nazi protesters" -- I mean the peaceful trucker convoy. Check out the news items below.

Today's zoom will be an open community discussion. Come and share your thoughts and questions.

### Last week's Zoom: Fleeing Portland

If you missed last week's zoom, you can [watch the recording here](#). We spoke with Kristen Reynolds, a refugee from Portland Oregon who is settling with her husband in Keene. She shared why they left for the Live Free or Die state and what she learned about the real purpose behind the pandemic measures, rioting, looting and burning as well as the defund-the-police campaign that were all prevalent in Portland.

# RebuildNH's Deeper Look at Bills

[Watch Melissa Blasek](#) discuss this week's slate of legislation and actions you can take.

## Some Good News!

Your efforts paid off and the two bills up for a vote this past week passed the House of Representatives. Thank you for making calls and emails to your representatives with your thoughts—it helps! It's likely that both bills will go to a second House committee before they head over to the Senate because they have a fiscal impact on the state's budget:

[HB 1604](#), including state medical facilities in the statute providing medical freedom in immunizations. This bill repeals the exemption of government nursing homes, hospitals and medical facilities from the statute pertaining to medical freedom in immunizations and would protect workers of these organizations against medical discrimination. [Check out the roll call vote](#) to see whether your representative(s) supported our cause.

[HB 1608](#), requiring the department of health and human services to contact certain individuals whose information was included in the state immunization registry.

## This Week's Headliners

**Friday is the day to be in Concord!** Starting at 9 a.m., we need as many of you as possible in Representatives Hall at the State House to protect our children from child abusers who want to force them to wear masks at school. We know masks don't work to prevent the spread of viruses, and now more people are waking up to the fact that they're actually counterproductive and cause physical, mental and spiritual harm, particularly to children. There are two bills that would address this issue. We support [HB 1131](#), relative to facial covering policies for schools, and [HB 1371](#), relative to school district policies on facial masks of students in schools. Please sign up to speak for either bill and then speak about both, asking the Legislature to end mandatory masking in our schools.

## Committee Hearings This Week

Tuesday, Feb. 22, 2022 | N.H. House of Representatives

[House Committee on Health, Human Services, and Elderly Affairs](#)

Legislative Office Building, Room 205

**1 p.m. — SUPPORT — [HB 1487](#)**, relative to the procedure for withdrawal from the vaccine registry. This bill asserts that individuals have the right to remove their names or their children's names from the vaccine database without their doctor's approval, which is a stipulation the Department of Health and Human Services is attempting to assert through rule-making. Please support this effort to uphold Part 1, Article 2-B of the State Constitution. [Register your disposition](#). [Email the committee](#).

**1:30 p.m. — SUPPORT — [HB 1488](#)**, expanding the prohibition against discrimination based on an individual's election not to participate in the state vaccine registry. This bill plainly confirms that a person cannot be discriminated against for removing their information from the vaccine database, which should be an elementary and obvious truth. We suspect N.H.'s government would attempt to create a vaccine passport system using the immunization database, and this bill would hinder that attempt. [Register your disposition](#). [Email the committee](#).

**3 p.m. — SUPPORT AMENDMENT — [HB 1271-Amendment](#)**, AN ACT repealing a statute relative to COVID-19 and health facilities. PLEASE NOTE: We DO NOT support the underlying bill, because it acknowledges that the state can force vaccinate people, a concept we fully reject. We DO support the amendment, which replaces the bill with a repeal of broad rule-making authority of the executive branch to control health facilities with new emergency COVID rules that have the force and effect of law. Essentially, [the amendment](#) would repeal [this law](#), which passed under our noses last year. It needs to be repealed. Thanks to Rep. Erica Layon for noticing this egregious law and making the effort to get rid of it. [Register your disposition about the amendment](#). [Email the committee](#).

Friday, Feb. 25, 2022 | N.H. House of Representatives [House Committee on Education](#)  
**State House, Representatives' Hall**

**9 a.m. — SUPPORT — [HB 1131](#)**, relative to facial covering policies for schools. This bill prohibits schools, whether public or private, from creating policies that force students or members of the public to wear masks. [Register your disposition](#). [Email the committee](#).

10 p.m. — **SUPPORT** — [HB 1371](#), relative to school district policies on facial masks of students in schools. This bill leaves the choice of whether to wear a mask up to parents and students and prohibits bullying that encourages mask wearing. [Register your disposition](#). [Email the committee](#).

Yes. He really said this.

**"We are going to end this pandemic by proceeding with the vaccination... There is still a part of the population fiercely against it. They don't believe in science or progress and are very often misogynistic and racist... They take up some space. This leads us, as a leader and as a country, to make a choice: DO WE TOLERATE THESE PEOPLE?"**
