

Newsletter 2/7/22

It's over the top. The government and media lies about the Ottawa Truckers (like for those of us opting out of the plandemic) has reached the level of seriously shrill. How do YOU maintain sanity in the midst of this collapse of the public sphere? Today's zoom will focus on that question, so we can all stay chill, keep our wits about us, and even experience some joy.

This Week's Headliners

We're asking for your special attention on three bills this week. If you're short on time, please be sure to email the committees YOUR opinion on these three bills. If you have more time, emailing the committees on all the bills we've included in today's email will go a long way to help advance our pro-liberty agenda this year. Please look below for more details, but here's the summary:

[SB 374](#): This Senate bill would prohibit vaccine mandates. Let's give the Senate some love and encourage them to support this effort!

[HB 1431](#): This House bill would codify parental rights in state statute, which would help with many of the issues we've been dealing with at public schools and hospitals.

[HB 1633](#): This is tyrant Rep. Marsh's bill to force vaccinate your children and college children with the COVID vaxx and all the rest of them, too. Let's kill this thing.

Monday, Feb. 7, 2022 | N.H. House of Representatives

[House Committee on Executive Departments and Administration](#)

Legislative Office Building, Room 306

10:15 a.m. – OPPOSE – [HB 1321](#), relative to the governor's power to declare a state of emergency. This ridiculous piece of political garbage from "progressive" Rep. Tim Horrigan would unravel all of the work we accomplished last year with State of Emergency reform. Let's annihilate this bill. [Click here to register your disposition](#). [Email the committee](#).

[House Committee on Health, Human Services, and Elderly Affairs](#)

Legislative Office Building, Room 205

9:30 a.m. – OPPOSE – [HB 1369](#), relative to COVID-19 health and safety policies at New

Hampshire performing arts venues. We don't need our taxpayer funded entertainment venues creating their own COVID policies. An evening out is supposed to be enjoyable, and COVID panic has gone on long enough. It's time to get real and end this nonsense. [Click here to register your disposition](#). [Email the committee](#).

10:15 a.m. – SUPPORT – [HB 1045](#), requiring legislative oversight over the emergency powers of the department of health and human services. This amazing bill gives the Legislative Ethics Committee oversight over emergency orders issued by DHHS, potentially putting an end to the department's reign of terror. This potential law change, of course, underlines the importance of electing the right people to the Legislature. [Click here to register your disposition](#). [Email the committee](#).

1 p.m. – OPPOSE – [HB 1633](#), relative to requiring COVID-19 vaccination for school attendance. Tyrant lawmaker Bill Marsh thinks he's being cute by introducing [HB 1633](#), which would **REQUIRE a COVID-19 vaccination** to attend school in New Hampshire. Clearly, we **OPPOSE** this bill. We need to let the Legislature know this bill concept is **COMPLETELY UNACCEPTABLE** and show up in force. You may also [contact the committee](#) to let them know your thoughts about this bill, and while you're at it, [call and email Rep. Bill Marsh](#) to let him know what you think about his bill. [Click here to register your disposition](#).

2:15 p.m. – SUPPORT – [HB 1035](#), relative to exemptions from school vaccine mandates. This bill is the opposite of the last one. If this bill passes, any required vaccination for school can be rejected as a matter of religious, conscientious, or medical objection, and this is how it should be! [Click here to register your disposition](#). [Email the committee](#).

Tuesday, Feb. 8, 2022 | N.H. House of Representatives

[House Committee of Children and Family Law](#)

Representative's Hall, State House

10:30 a.m. — SUPPORT – [HB 1431](#), establishing the parental bill of rights. With masking at schools against parents wishes, the overactivity of DHHS, recently in the case of JR Hoell, and other state encroachment into parental rights in other examples too numerous to cite, it is high time that the People's Legislature create legal barriers to this state encroachment. [Click here to register your disposition](#). [Email the committee](#).

[House Committee of Education](#)

Legislative Office Building Room 207

1:45 p.m. — SUPPORT – [HB 1241](#), prohibiting a school district from mandating a COVID-19 vaccination for school attendance. This bill's title says it all, and it's a good idea. [Click here to register your disposition](#). [Email the committee](#).

Wednesday, Feb. 9, 2022 | N.H. State Senate

[Senate Committee of Health and Human Services](#)

Legislative Office Building Room 101

9:45 a.m. – OPPOSE – [SB 390](#), relative to telemedicine and telehealth. We're concerned this bill could be lobbyist driven and the Senators don't understand what it does—we have to give them the benefit of the doubt, because **this bill is EVIL!** This bill would prohibit telemedicine from any practitioner not licensed in New Hampshire, which would cut-off effective COVID treatments from people who have been receiving them from out-of-state telemedicine doctors. The N.H. Legislature does not have the authority to regulated interstate commerce, because this power is delegated to the U.S. Congress in the U.S. Constitution, and thus we believe this bill is unconstitutional! Please [email the committee](#) and ask them to kill this horrible, horrible bill. [Click here to register your disposition](#).

10:30 a.m. — SUPPORT – [SB 374](#), relative to the SARS-CoV-2 vaccinations. Three cheers to the Senators who crafted this legislation; this one gets it right! This Senate bill would prohibit vaccine mandates, and it would do so quite effectively. Let's give the Senate some love and encourage them to support this effort! We need to let them know we care. [Click here to register your disposition](#). [Email the committee](#).

Thursday, Feb. 10, 2022 | N.H. House of Representatives

[House Committee Of Labor, Industrial and Rehabilitative Services](#)
Legislative Office Building Room 207

10 a.m. — SUPPORT – [HB 1143](#), relative to medical mandates adopted by employers. This bill requires employers who institute vaccination mandates to submit their policy to the state for review and grant severance pay to any employee who refuses to submit. It's not the ideal solution, but we still want to be supporting all bills that assert how employer mandates are unethical and anti-liberty, and this one fits the bill. [Click here to register your disposition](#). [Email the committee](#).

10:30 a.m. — SUPPORT – [HB 1410](#), relative to causes of action involving private business entity policies requiring employees or customers to receive medical treatment. This is a great bill that makes employers liable for the negative impacts of any vaccination mandate they impose in the workplace. The language needs a little work, but we support this concept because it aligns with the responsibility side of liberty. [Click here to register your disposition](#). [Email the committee](#).

UPDATE ON POSTPONED BILLS

Hearings for the following postponed bills have either been rescheduled as follows or remain unscheduled:

[House Committee on Education](#)

UNSCHEDULED — SUPPORT — [HB 1131](#), relative to facial covering policies for schools. This bill prohibits schools, whether public or private, from creating policies that force students or members of the public to wear masks. [Email the committee](#).

UNSCHEDULED — SUPPORT — [HB 1371](#), relative to school district policies on facial

masks of students in schools. This bill leaves the choice of whether to wear a mask up to parents and students and prohibits bullying that encourages mask wearing. [Email the committee](#).

Take Action

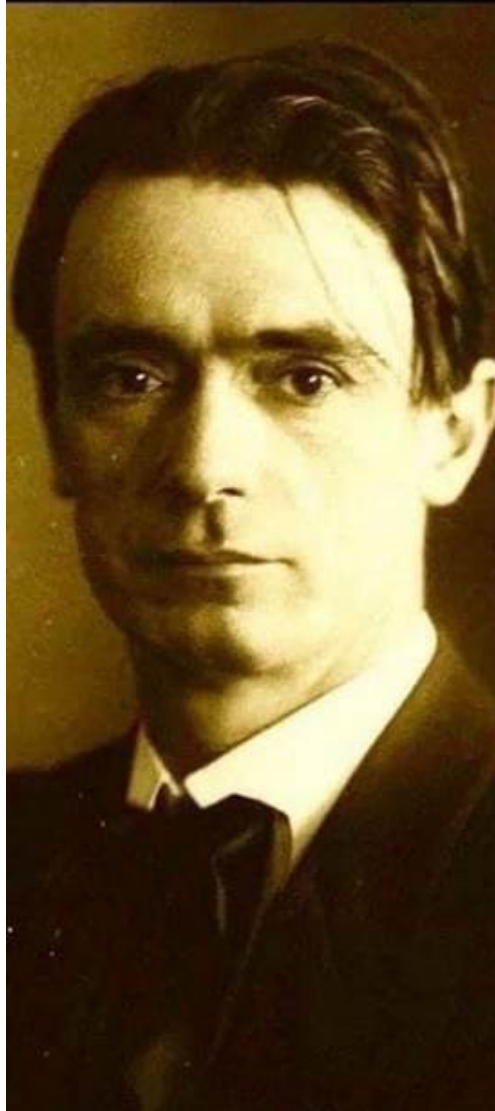

Your time is valuable, but we know from experience that the Legislature responds best when the public shows up in person to testify for or against a bill. If you have the time, please consider showing up for the bills that interest you to testify for or against them. If you don't have the time, you can still help. Please consider signing in to support or oppose the bills that interest you using the following links or email the committees listed above with your thoughts on the bills we've highlighted.

"ELIMINATE THE SOUL WITH MEDICINE"

theorganizeearth More than a hundred years ago, Rudolf Steiner wrote the following:

"In the future, we will eliminate the soul with medicine. Under the pretext of a 'healthy point of view', there will be a vaccine by which the human body will be treated as soon as possible directly at birth, so that the human being cannot develop the thought of the existence of soul and Spirit.

To materialistic doctors, will be entrusted the task of removing the soul of humanity. As today, people are vaccinated against this disease or that disease, so in the future, children will be vaccinated with a substance that can be produced precisely in such a way that people, thanks to this vaccination, will be immune to being subjected to the "madness" of spiritual life.

He would be extremely smart, but he would not develop a conscience, and that is the true goal of some materialistic circles.

With such a vaccine, you can easily make the etheric body loose in the physical body.

Once the etheric body is detached, the relationship between the universe and the etheric body would become extremely unstable, and man would become an automaton, for the physical body of man must be polished on this Earth by spiritual will.

So, the vaccine becomes a kind of arymanique force; man can no longer get rid of a given materialistic feeling. He becomes materialistic of constitution and can no longer rise to the spiritual."

-Rudolf Steiner (1861-1925)
