### Keene School Board Action Today; Voting Tomorrow

On Monday we need volunteers to step up anytime between 3-8PM at the Country Life Restaurant in Keene to call committed yes voters and remind them to vote the next day. Please let Tom know if we can count you in: [thesurfking@gmail.com](mailto:thesurfking@gmail.com).

**Voting will be taking place tomorrow, March 8 from 7:30AM-5PM at the Keene Rec Center. See [this flyer](#). (School Board positions are all at large and not ward specific.)**

## House Set to Pass Three RebuildNH Bills as Committees

### Finalize Major Recommendations for Following Week

We have a lot to celebrate this week, as three RebuildNH supported bills have made their way onto the N.H. House Consent Calendar, meaning that the committees garnered bi-partisan support for these bills and acknowledged that they would pass overwhelmingly through the House. We know that your activism helped make this happen. Thank you! Consent Calendar bills are typically passed or killed all together with a single vote at the beginning of each session. The following bills will be voted Ought to Pass on Thursday, March 10:

- [HB 1003](#), prohibiting health care providers from refusing to provide care or services based on patient vaccination status. This bill is very much needed to protect unvaccinated citizens from being treated as second-class citizens.

- [HB 1099](#), prohibiting the department of health and human services from requiring vaccine passports for services. While this bill could be broader to prohibit discriminatory vaccine passports across the board, it is a start to prohibit the State from getting involved in promoting them.
- [HB1466](#): Many health providers will not consider prescribing safe, effective drugs (like ivermectin) for the treatment of COVID-19 because they fear disciplinary action by licensing boards. This bill would protect doctors from disciplinary action for prescribing approved, off-label medication.

Sadly, one RebuildNH bill was voted inexpedient to legislate by the Judiciary Committee, and it is not likely to pass at this point. While we have heard from our friends in the Legislature that this solution is not going to work at the present time, we would always encourage you to [email your representatives](#) if you believe the committee got this one wrong, and let them know:

- [HB 1260](#), making immunization status a protected class. This bill would make "immunization status" a protected class in New Hampshire's civil rights law.

Other than the House actions on the above bills, the House committees will be meeting this week to finalize amendments on the remaining bills that they're working on. The week after this one will be another heavy week for activism. Please be ready to take action when we put out the call.

## Becoming a Resilient Community with Nonviolent Communication

**Saturday April 2, 1-3PM, Country Life Restaurant, Keene**

*with Kristen Reynolds*

Community and relationships takes communication. Most of us don't learn much in the way of

communication skills growing up, because our society has an idea that communication is natural and instinctive. Our *desire* to communicate *is* instinctive, but the ability to do it well is not. Nonviolent Communication, founded by Marshall Rosenberg, is one of the best communication skill sets I know. With its help I've improved all my relationships and have helped groups stay together. I'd love to share it with this group, especially during this time of great stress and change.

**Cost: \$10-\$20 sliding scale. Pre-register with Kristen at [kreynolds3000@gmail.com](mailto:kreynolds3000@gmail.com).**

## Celebrating Michael Walsh April 9 (RSVP)

FreedomMedical - American Virtual Primary Care

<https://www.freedommed.org/>

**Founded by Dr Vladimir Zelenko**

FreedomMedical Association (FMA) is an organization of medical professionals united to protect your constitutional medical rights and enable you to take back your health.

FMA doctors believe that freedom of choice in healthcare and physician independence are critical to protect individual rights and quality healthcare. Each person deserves their doctor's best advice with as little government encroachment as possible.

Physicians should be able to practice medicine as they always have, using FDA-approved medications and treatments. There should be no government controlled top-down approach to medicine; it must maintain a patient-centric bottom-up decision-making approach based on individual patient needs.

FMA doctors are available outside the insurance system because the insurance system is allowing the government to block you from obtaining what you need for your good health.
