

## Newsletter 4/18/22

Welcome to our Monday Edition, and a belated Happy Easter to all.

Inside you will find a selection of news and memes, beginning with Positive Takes. Legislative news is up next, followed by our news sections including heterodox views on the snake venom hypothesis, more emerging data on all-cause mortality (especially in millennials), takes on the economy and Ukraine, and more.

**Please join us at 1pm today for our weekly community zoom.** Today will be an open discussion and Q&A. As always, you are welcome to come on camera or audio to voice your comments and questions.

[Click for 1PM Zoom](#)

***Always remember: no one is telling you what to believe, or even what is true. Do your own research, make up your own mind. Collective intelligence-making is a path, not a destination.***

**John-Michael and the RiseUpNH team**

Rise Up NH and VCAL and projects of the Collaborative Communities Coalition, a 501(c)(3) nonprofit. [Please donate to help keep us going.](#)

---

**We are revived!**

Last Saturday's *Musical Community Revival* in Swanzey was a lovely celebration of sound and community. Thank you to all of the musicians, many of whom donated their time, talents and equipment, and all of whom roused the attendees with heartfelt renditions of classics, americana, protest songs, originals, rap anthems, and spirituals.

Our deep gratitude goes out to all of the volunteers who helped set up, break down, clean up, prepare the food, and welcome attendees. The event once again demonstrated that we are so much more than what we are protesting: we are a caring, loving and supportive community with a positive vision of the future. Thanks to all who came out to share the spirit of music and support our musicians!

***Special thanks to Bill Rogers*** (seen here playing upright bass) for his deep commitment to creating opportunities for musicians and other artists to share their passion over the past two years. Bill was the lead organizer of the musicians and managed the sound engineering on Saturday.

## Legislative Actions

from RebuildNH:

### Priorities for the week of April 17th

1. Senate committee hearing on HB1455 and HB1210, both are on employer vaccine mandates. We need you to show up on **Wednesday at 9am and 9:30am** or [email the committee](#) in support. See details below.
2. Call the Senators to support bills prohibiting mask mandates:
  - Call Sen. James Gray (603-271-3479) and ask him to support HB1268 and HB1272. See details below.
  - Call Sen. Jeb Bradley (603-271-3266) and ask him to support an UNALTERED HB1131. See details below.

The coming week presents one of the best opportunities to expand medical freedom yet, and your emails and testimony will be needed to push some of our core RebuildNH bills across the finish line. There is some good news to report below, but also a few efforts we still need your help with.

First off, the following bills **are in jeopardy** and we need your help getting them across the finish line. Please call Senator James Gray about HB1268 and HB1272: 603-271-3479. Please call Senator Jeb Bradley about HB1131: 603-271-3266.

**SUPPORT:** [HB 1268](#), this bill would prevent a town or city from ever implementing a mask ordinance again. It would also prohibit any other nonsensical Covid regulation at the town level. Tell Senator Gray that we don't accept local tyranny.

**SUPPORT:** [HB 1272](#), this bill enacts much needed restrictions on town health officers. Remind Senator Gray that there must be limits on authority.

**SUPPORT:** [HB 1131](#), relative to facial covering policies for schools. This bill prohibits public schools from creating policies that force students or members of the public to wear masks. We believe parents should always be able to opt-out of mask mandates for their own children and the law ought to reflect that. Let Senator Bradley know you want this bill passed unamended.

Please target your outreach in support of these three bills toward Sen. Jeb Bradley and Sen. Chuck Morse, the Senate leaders, by calling Bradley at [603-271-3266](tel:603-271-3266) or Morse at [603-271-3479](tel:603-271-3479) or emailing them at [Jeb.Bradley@leg.state.nh.us](mailto:Jeb.Bradley@leg.state.nh.us) and [Chuck.Morse@leg.state.nh.us](mailto:Chuck.Morse@leg.state.nh.us).

## Senate Session: Thursday, April 21

The Senate has done some good work this week, but there are still a few lingering efforts that could use your attention:

**OPPOSE ITL, SUPPORT OTP — [HB 1425](#)**, relative to the taking of real property by eminent domain. This bill modifies the power of the governor and council to take private property during states of emergency as well as adjusts the calculation of compensation paid for such takings. The Senate Judiciary Committee, chaired by Sen. Sharon Carson, unanimously voted ITL (inexpedient to legislate) for HB 1425, which will kill the bill. Please ask the Senate to oppose the ITL (Inexpedient to Legislate) recommendation, and support an OTP (ought to pass) motion on the floor.

**OPPOSE INTERIM STUDY, SUPPORT OTP — [HB 1044](#)**, relative to direct payment and membership-based health care facilities. This is a really important bill and the committee's recommendation needs to be overturned on the floor. This bill doesn't need to be studied, it needs to become law to create desperately needed competition in the health care market. This bill amazingly would carve out an exemption allowing business ventures to create hospitals and other medical facilities that only accept direct payment, which would exempt them from federal COVID regulations and other potential federal overreach. Please ask the Senate to oppose the Interim Study recommendation, and support an Ought To Pass motion.

**SUPPORT OTP-A — [HB 1495](#)**, prohibiting the state from requiring businesses to require vaccine or documentation related to vaccination or immunity status. This bill as amended prohibits the state and all the political subdivisions from mandating vaccines for any private business. The purpose of this bill is to prevent us from ever having a NYC style passport system.

**Please contact the whole Senate and ask them to support HB 1425, HB 1044, and HB 1495:**

## Committee Hearings This Week

Please help by emailing the committees and/or coming in to testify on these bills if you can manage the time away from work for the following RebuildNH bills this week:

Tuesday, April 19, 2022 | N.H. House

**House Executive Departments & Administration**

**Legislative Office Building, Room 306**

**1:45 p.m. —OPPOSE—[SB 382](#)**, relative to licensure requirements for telehealth services

and relative to licensure of physicians and physicians assistants through reciprocity agreements. The Senate Amendment did not fix this bill. This bill would prohibit telemedicine from any practitioner not licensed in New Hampshire, which would cut-off effective COVID treatments from people who have been receiving them from out-of-state telemedicine doctors. This is the opposite of what we should be doing right now. This bill needs to die.

Please [Click here to register your disposition](#). [Email the committee](#).

Wednesday, April 20, 2022 | N.H. Senate

### [Senate Committee on Health and Human Services](#)

State House, Room 100

**9 a.m.—SUPPORT—[HB 1455](#)**, relative to state enforcement of federal vaccine mandates. This is the Speaker of the House's bill to prohibit state officials from enforcing federal COVID-19 mandates. Please [Click here to register your disposition](#). [Email the committee](#).

**9:30 a.m.—SUPPORT—[HB 1210](#)**, relative to exemptions from vaccine mandates. This bill creates a broad religious, conscientious or medical exemption to vaccine mandates. Please [Click here to register your disposition](#). [Email the committee](#).

For the most up-to-date information on what is coming up, join RebuildNH's [Telegram Channel](#) or [our Facebook page](#).

## Jab and Plandemic News

### Pushback against the Snake Venom Hypothesis

*You may have seen the Watch the Water video with Stew Peters and Dr. Bryan Ardis (<https://rumble.com/v10md2r-world-premiere-watch-the-water.html>) . It has generated a storm of controversy. Here are two articles challenging its conclusions:*

#### **James Lyons-Weiler: About Those Venom Proteins...**

*At least 10 people asked me, too, about the venom proteins. I offer a plausible explanation, what do you think*

<https://popularrationalism.substack.com/p/about-those-venom-proteins?s=r>

**PSYOP ALERT! There's definitely something very wrong with the "Watch the Water" video!**

<https://stateofthenation.co/?p=112476>

**Ethical Skeptic** ☀️  
@EthicalSkeptic

...

Our chief warning signal aside from malignant neoplasms, conductive issues, deaths of 15-54 year olds is...

Non-Covid Natural Deaths Excess - about 3200 deaths per week now. But has averaged 5000 deaths per week for the last year (area in yellow)

And NO ONE is talking about it.

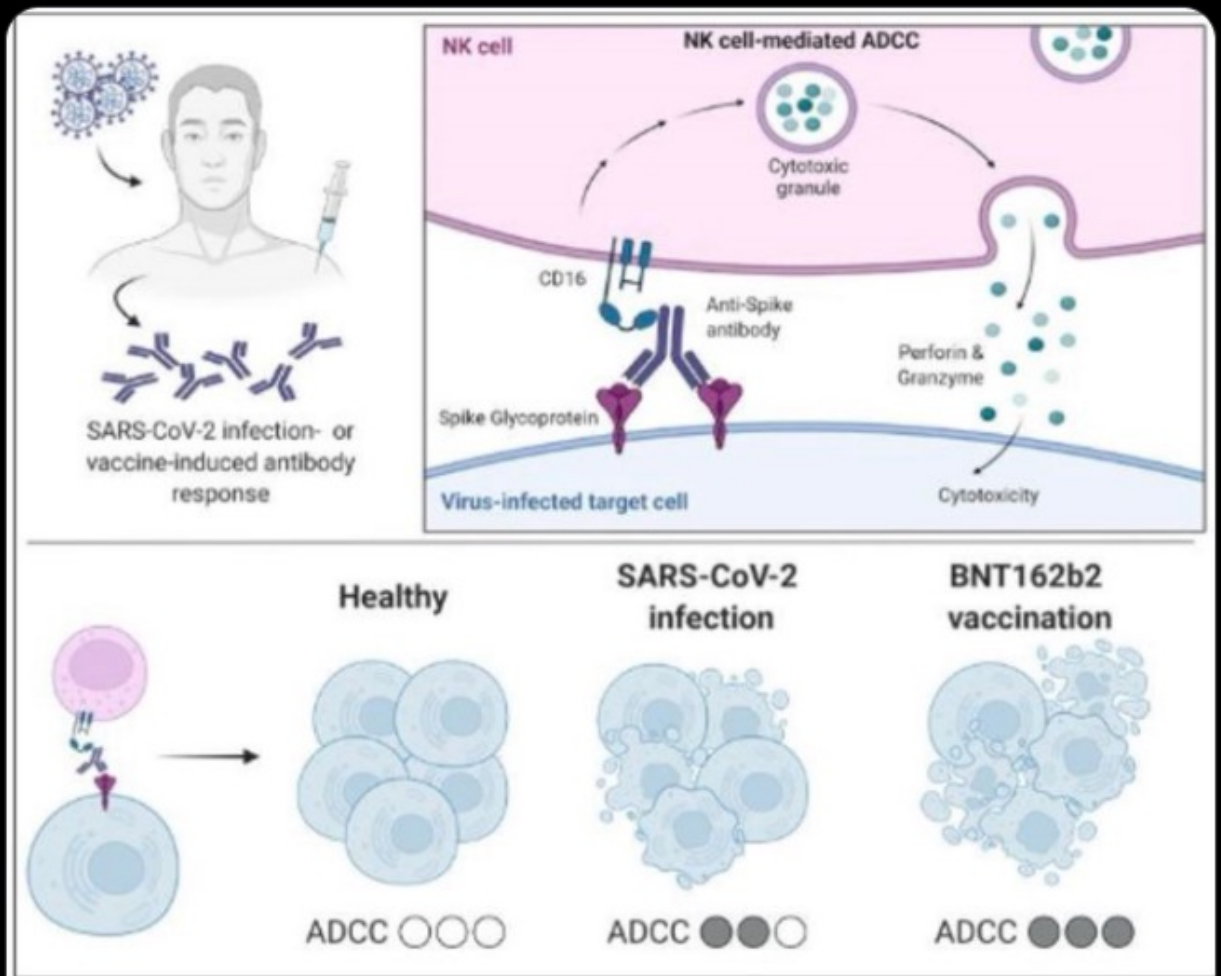

**Dr. Doug Corrigan**  
@ScienceWDrDoug

**click to read thread**

1/I warned about Antibody Dependent Cellular Cytotoxicity (ADCC) many months ago, and this recent paper demonstrates that antibodies from the jab'd are much more potent at eliciting a Natural Killer response against Spike expressing cells than are antibodies from an infection.

## Monday Memes

The Ghislaine  
Maxwell trial is  
over, why haven't  
there been any  
arrests of her  
clients?

Because her  
clients are  
running the  
government.

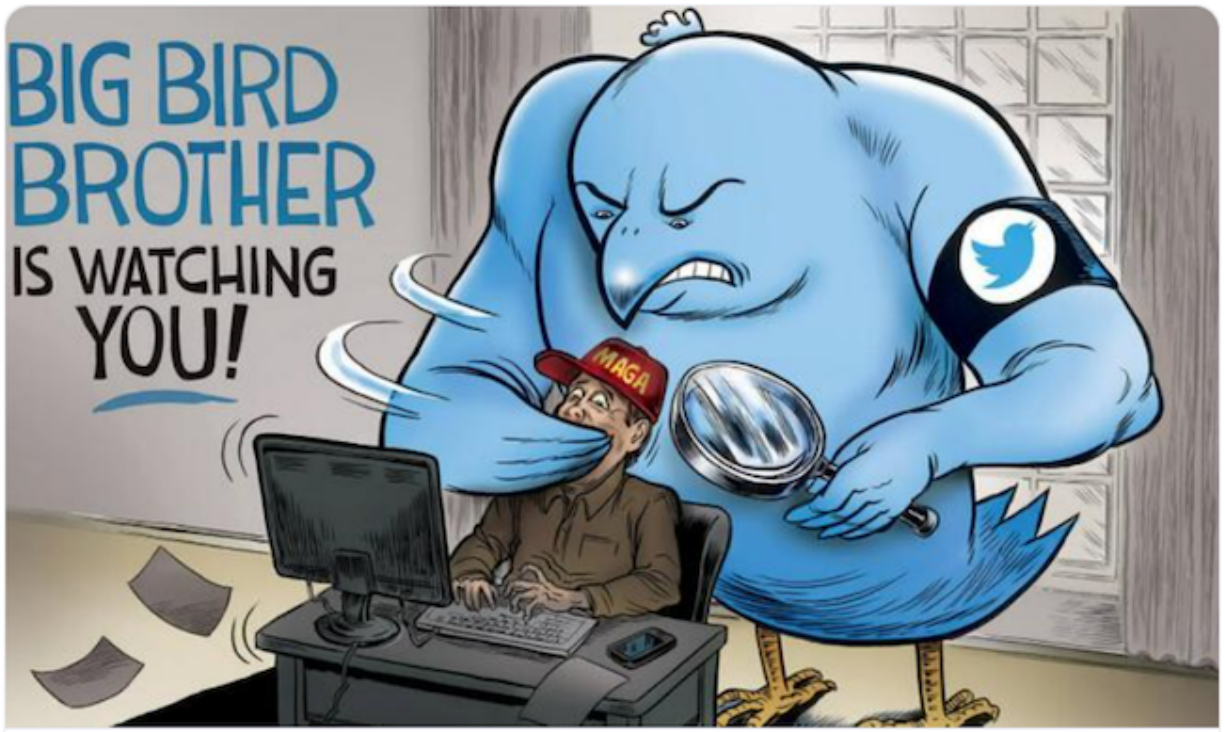

## R.I.P seatbelt analogy

I thought people were definitely over the seatbelt analogy, but apparently it still lives and even thrives in some places. So let me put it to rest, once and for all:

- Wearing seatbelts never has possible short term side effects like: blood clots, myocarditis, guillan barré, neurological issues, menstruation disorders and even death.
- Wearing seatbelts doesn't cause potential unknown long term side effects.
- If my seatbelt malfunctions and/or is faulty I can hold the manufacturer liable.
- I can take off a seatbelt at a click of a button.
- The seatbelt manufacturer and agency that approved seatbelts, did not try to hide safety data for 75 years.
- Seatbelt manufacturers have not been convicted and haven't paid the largest criminal fines in history for fraud, malpractice, bribery etc

**BIG BIRD  
BROTHER**  
IS WATCHING  
YOU!

**I am attending the  
shenanigans.**

**I shall return presently.**
