

Newsletter 4/22/22

Happy Earth Day 2022! Let us hope and pray that we can collectively come back into harmony with the natural world, and recognize the supreme gift of life on this planet -- affirming that we can trust nature, our bodies, and creation.

Bellow is our Friday Edition. We begin with our **Community Bulletin Board**, which includes options to learn organic farming and homesteading skills. Following that you will find **Events**, then a selection of news beginning with **Positive Takes**. **Recent News** features the mask mandate wars, more emerging findings on COVID, vaccine and mandate damages, including effects on children. You will also find sections on **Money/Food/Economics**, **Ukraine and other Globalist Hotspots**, **Culture Wars**, and more. As always, **Memes** can be found at bottom.

This coming Monday's Zoom: Raelle Kaia

Join us for Monday's Zoom as Kristen Reynolds interviews Raelle Kaia, a friend of hers from Portland OR. Raelle is an author (see her [excellent Substack blog](#)), healer, musician (hear [her music here](#)), and psychotherapist. She is also a writer and teacher of psychology, spirituality, and philosophy. A primary focus of her work is to question the spiritual roots of humankind's destructive assault on the world and the self; and to present an alternative intainment of deep connection by which to guide our lives. She holds a JD from University of Idaho, a Master's in Clinical Mental Health Counseling from Southern Oregon University, and is a certified Reiki Master. Read Raelle's post, [What's To Be Done about the Vaccine Hesitant? - Deconstructing the Power of Spell Words](#).

In case you missed it: Rise Up NH Weekly Zoom 4/18/22 - Food and Currency Relocalization

Monday's session was an open conversation about how we ought to build upon our fledgling efforts to relocalize (we discuss food and currency, but this also applies to energy) in light of the worsening supply chain issues, "shortages" and other globalist efforts to submarine the economy, and create a parallel "System B." Watch it here: <https://riseupnh.org/weekly-zoom/> or here: <https://www.brighteon.com/ec6811b9-e462-478f-91d7-79018d01e7e8>.

Upward and Onward!

John-Michael and the RiseUpNH team

Rise Up NH and VCAL and projects of the Collaborative Communities Coalition, a 501(c)(3) nonprofit. [Please donate to help keep us going.](#)

Always remember: no one is telling you what to think or believe, or even what is true. Do your own research, consider multiple perspectives, suspend final conclusions, and make up your own mind. Collective sense-making is a path, not a destination.

Learn Organic Farming in Barter Exchange

Fertile Fields Farm in Westmoreland is offering a barter exchange opportunity for a person interested in coming one day a week from approx 9:30 am to 3:30 pm to participate in farm activities (planting, hoeing, cultivating, setting up fencing, harvesting, etc) and to learn the ins and outs of a small organic farm. Join us for a home made lunch and go home with a bag of fresh produce. Starting approx early May. Contact Lori at schreierlori@aol.com

Looking for Solstice Meeting Site with Bonfire

Rise Up NH would like to host a social convening around a bonfire in the Monadnock region, to accommodate up to 75 people, near the June solstice. Please contact admin@riseupnh.org if you know of a site. Thank you.

Homesteading Learning Opportunities in Acworth

In 1998, our family took a week-long homesteading course in New York state. One and a half years later, we moved off grid and established our homestead. More than twenty-three years have passed since our homesteading immersion experience and with many years of

experience and hard labor now under my belt, I have learned a variety of skills.

I have thought for years about teaching some basic skills classes, but the things that were once so unknown and out of reach are so common to me now that it doesn't seem like there's much to it. I also get nervous thinking about doing something really official where I feel pressure to make sure people get the value of their money for a workshop or class. As such, I am thinking that a more relaxed approach would be to let people come and do some projects with me that they could learn and then do at home.

For years, I have had a dream of establishing a pick-your-own garden. My ideas have come from people like Joel Salatin, Sepp Holzer, Paul Gautsche, Suzanne Lupien, and others, with my own additions and design, which I've been working on for a couple years.

This Sunday afternoon, I will be installing the first of several "Back to Eden gardens" in a new clearing, with a slight modification due to the materials I have available. For details on Back to Eden gardens, an almost-2-hour video is available to watch free here: <https://www.backtoedenfilm.com/#/>

Requests for visitors:

- 1) wear loose-fitting, modest clothing suitable for working outside in the dirt
- 2) for the comfort of me and all my visitors, our homestead is "rated G" on language - no profanity, obscenities, sewer language, or references to or euphemisms (milder versions) for such language.

Participants will be offered free access to the produce of any gardens they help establish for this season's yield. If you are interested in this learning experience, please e-mail me at thelilacdragonfly@icloud.com for more information. Some other ideas I have for upcoming opportunities are:

- Yurt-building
- Building a shed with hand tools
- Basic forestry with bowsaws and hatchets
- I'm also open to other suggestions.

In the future, I may teach some classes on inkleloom weaving, soap-making, and more. To get an idea of some of my knowledge set, you can visit my website at: thelilacdragonfly.wixsite.com/home.

We are more than 12,
Deanne Sanville

Good news on bills passing both House and Senate in NH!:

★ **SUPPORT OTP-A—HB 1495**, prohibiting the state from requiring businesses to require vaccine or documentation related to vaccination or immunity status. This bill as amended prohibits the state and all the political subdivisions from mandating vaccines for any private business. The purpose of this bill is to prevent us from ever having a NYC style passport system.

★ **SUPPORT: HB 1439**, relative to hospital visitation policies. This bill allows, with limited exception, a patient to designate a parent, spouse, family member, or other caregiver to be present while the patient receives hospital care.

★ **SUPPORT: HB 1003**, prohibiting health care providers from refusing to provide care or services based on patient vaccination status. Sadly, this bill is very much needed to protect unvaccinated citizens from being treated as second-class citizens.

★ **SUPPORT: HB 1488**, expanding the prohibition against discrimination based on an individual's election not to participate in the state vaccine registry. This bill plainly confirms that a person cannot be discriminated against for removing their information from the vaccine database, which should be an elementary and obvious truth. We suspect N.H.'s government would attempt to create a vaccine passport system using the immunization database, and this bill would hinder that attempt.

★ **SUPPORT: HB 1604**, including state medical facilities in the statute providing medical freedom in immunizations. This bill repeals the exemption of government nursing homes, hospitals and medical facilities from the statute pertaining to medical freedom in immunizations.

★ **SUPPORT: HB 1608**, requiring the department of health and human services to contact certain individuals whose information was included in the state immunization registry. This bill requires the Department of Health and Human Services to

Department of Health and Human Services to
remove your private medical information from the
State's Vaccination Registry.

VACCINE INJURY

Covid-19: Is the US compensation scheme for vaccine injuries fit for purpose?

Patients and lawyers say that America's system for covid vaccine injury claims is costly, opaque, and yet to issue a single payout. **Maryanne Demasi** reports

Maryanne Demasi *investigative reporter*

"My toes move constantly, 24 hours a day, uncontrollably back and forth," says Chris Dreisbach, a 44 year old attorney who was admitted to hospital with debilitating neurological symptoms after a second dose of Pfizer's mRNA vaccine in March 2021. "I often spend at least four hours a day in my bathtub, because a hot bath is the only way I can turn down this electrical sensation that pulses through me. The cognitive issues are worse. I used to pride myself on being able to get up in a courtroom and think on my feet. Now, I have this brain fog. It's embarrassing."

From his hospital bed Dreisbach began researching compensation schemes, only to discover that the US's national Vaccine Injury Compensation Program (VICP) was not available to people injured by covid-19

than the VICP. Loss of income under the CACP is limited to \$50 000 (£38 250; €45 900) a year, and no compensation is included for pain or emotional distress. Under the VICP, payouts for lost wages are not capped, and compensation for pain and suffering is awarded up to \$250 000.³

Since 1988 compensation has been awarded in 36% of the 24 909 claims filed under the VICP, with around \$4.7bn paid out.⁶ In contrast, compensation has been awarded for just 0.4% of the 7547 claims filed under the CACP, with around \$6m paid out.⁵ The vast majority (93%) of the claims handled by the CACP have been filed during the covid pandemic, of which 4097 relate to injuries or deaths from covid vaccines and 2959 relate to other covid countermeasures.

The Vaccine Injury Compensation System for COVID has Failed

The national system for compensating the COVID-19 vaccine injured has not paid out a single claim.
