This data was derived from tracking over 63 million people. Many doctors and so-called conspiracy theorists were labeled, harassed, fired and allegedly murdered trying to expose this intentional genocide agenda over the last few years. This is undeniable PROOF from government run statistics that they were right. The Globalists are trying to kill us! If you care more about the future of this planet than being called crazy you must distribute this flyer to everyone you come in contact with. This is your duty.

We are moving forward and holding anyone we find complicit in this KILL AGENDA accountable. God Bless us All!

40-49 6% vs. 16%

50-59 8% vs. 35%

White House fact-sheet says part of the mammoth \$33 billion spending package it's requesting for Ukraine will be to "support independent media." Because nothing screams "independent" like being directly funded by the US Government as part of its "information warfare" initiative

WH.GOV

The Administration is calling on Congress to provide an additional \$8.5 billion in economic assistance to help the Government of Ukraine respond to the immediate crisis and continue to provide basic citizen services. This includes funds to:

- **Ensure Ukraine's democratic government continues functioning;** support food, energy, and health care services for the Ukrainian people; and assist the Ukrainian government in responding to operational challenges as businesses shutter and revenue collection plummets.
- **Counter Russian disinformation and propaganda narratives,** promote accountability for Russian human rights violation, and support activists, journalists, and independent media to defend freedom of expression.
- **Support small- and medium- sized agrobusinesses during the fall harvest and for natural gas purchases** by the Ukrainian state energy company in order to address critical food security, energy, and other emerging needs in Ukraine.
