

## Newsletter 6/10/22

Welcome to our **Friday Edition** newsletter with curated news of the day. Of note are the continued efforts to notify the FDA about how wrong **COVID shots for infants** and young children are, the appearance of “**Sudden Adult Death Syndrome**” (yeah, *really*), and the ill-advised ramp-up of the **Monkey Pox scare** and **other false flags** for CYA purposes while **inflation** mangles people's quality of living. Whitney Webb discusses **Blackmail in America** from her new book (see link under the *Ukraine, False Flags, & other Globalist-Inspired BS* section below). John-Michael offers a podcast with Paul Kervick of VT titled, **Freedom: The Inside-Out Game** (see the *Expanding Paradigms* section near the bottom). As is customary, **Memes** close out today's edition.

**Monday's Zoom** session was an open discussion of Big Pharma's efforts to jab babies (and how to stop it); RUNH folks announcing their candidacy for NH Legislature; a report from last Saturday's (6/4) community organizing meeting; and Gerhard's ivermectin sign-on letter to the Sentinel. We also address the question, “Can we just ‘forgive and forget’ with the COVID jab zealots who've been attacking us?” Hint: Compassion and good boundaries are not mutually exclusive. **The recording can be found [on this page](#), or on [Brighteon](#).**

## RUNH Community Conversations: Groups started!

We met in person in Gilsum on June 4th as a follow up from our meeting about a month prior (it's always wonderful to meet in person!) We've come away with four groups:

- 1. Community Group**, which covers all things that encourage and deepen community such as music gatherings, dance, barter swaps, prayer circles, camaraderie, and intentional community;
- 2. The Prep Group** plans for the future, with topics like emergency plans, storing food, foraging, and work parties;
- 3) The Economy/Politics Group** covers political writing and activism, running for office, studying the constitution, and alternative currencies (this year, a couple of our members are running for office, Frank Natoli and Joe Myrzoff - supporting their efforts could be a part of this group's mission); and
- 4. The Awakening Consciousness Group** considers the big picture and ask such questions

as: what positive stories might capture the opportunities of our time? what gives us meaning? and, how do we constructively engage others in our community... other topics under the umbrella of this group are Nonviolent Communication, meditation, personal resilience, core values conversations (e.g., around freedom, sovereignty), leadership in the midst of chaos, etc..

Each group has autonomy and decides what topic they want to work on, and what their goals are. If you would like to know more about a group or if you'd like to check one out in person, let either John-Michael or Kristen Reynolds know.

In the left chart we see the stark rise in Non-Covid Natural Cause Deaths among 15 - 54 year olds. We also see the three major UCoD ICD-10 components to that.

On the right we see the MCoD ascriptions for those same three ICD-10 codes.

Therefore, the rise is NOT COINCIDENTAL...

OMG guys. I think @USMortality is over the target. Using household survey data he showed the MASSIVE rise in disability status claims - mirroring a particular event which we cannot mention else Twitter will slap "Misleading" on it and won't let you share it.

Is this proof, that the COVID-19 vaccines might have caused 2.9M additional disabilities in the US?

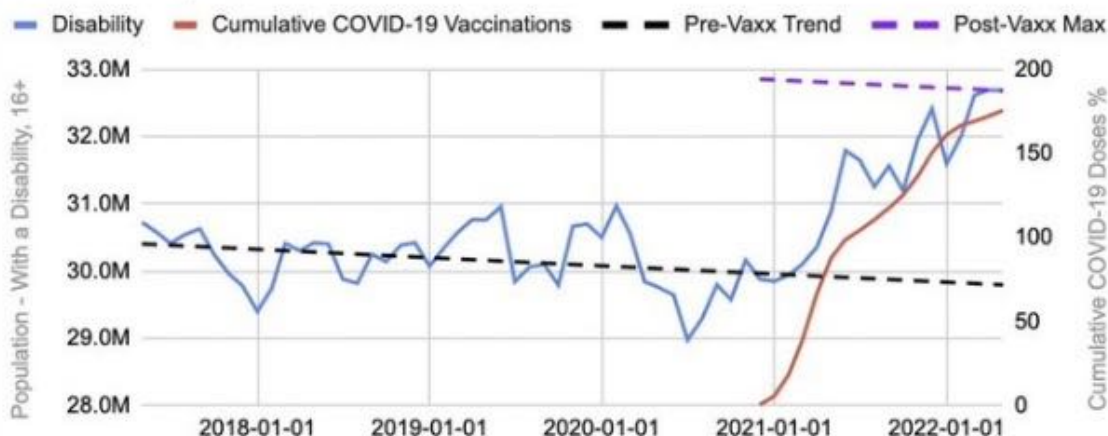

> Sharp increase from trend occurs early 2021, when vaccinations started.

> Persons 16+ with a disability increased from 30M --> 32.7M.

### Freedom: The Inside-Out Game

*Episode 12 of the Great Invitation Podcast with John-Michael and Paul Kervick. We ask such questions as: what is the relationship between the internal realm of freedom and its embodied experience? What is the relationship between individual freedom and responsibility for the community and for nature? How can we reimagine freedom and the collective good in the midst of a culture that demonizes both? How might working from unity expand our perception and expression of our individual uniqueness? How does allowing others more freedom redound to ourselves? Does working for the greater good always have to mean self-sacrifice even to the point of self-denial?*
