

Newsletter 6/3/22

Welcome to our Friday Edition newsletter with curated news of the day. While the elites continue their agendas (food shortages, ramping up war in Ukraine, Monkey Pox scares, etc.) at the Bilderberg meeting in Washington this week, it feels that we are making progress towards truth and freedom, slowly and perhaps a bit hesitantly. Vax danger coverups are being revealed, all-cause death counts soar, Monkey Pox is being discovered as just another deep state program, Cominarty is dead, and the NY Times and The Lancet have finally started questioning masks. Friday Memes are at the bottom of the newsletter.

Meanwhile, filing season for elected offices goes through June 10. Are you up for it?

John-Michael and the RiseUpNH team

Rise Up NH and VCAL and projects of the Collaborative Communities Coalition, a 501(c)(3) nonprofit. We are a diverse non-partisan group focused on education and community building.

PLEASE DONATE TODAY to support our efforts. Thank you!

Always remember: no one is telling you what to think or believe, or even what is true. Do your own research, consider multiple perspectives, suspend final conclusions in favor of continuing research, and always make up your own mind. Collective sense-making is a path, not a destination.

Update on Fundraiser for Peggy Schauffler

We have collectively raised over \$2600 for Peggy's first cataract surgery (thank you!), which is slated to take place on June 21. We have sent her what has been raised so far. Her response: "I can't tell you how much that means to me!" As Peggy needs surgery on both eyes, she will be needing another \$3000 to cover what her insurance does not. With her second surgery scheduled for July 12, we will keep the fundraiser going. Here is the link to the fundraiser: <https://www.givesendgo.com/G311F>. Thank you!

Parallels Between Social Media Features & Cult Techniques

<https://mailchi.mp/humanetech.com/the-wisdom-gap-explained-575802>

Parallels: Authoritarian Cult Techniques & Social Media Features

	AUTHORITARIAN CULT TECHNIQUES	SOCIAL MEDIA FEATURES
LOVE BOMBING	Cults shower new members with affirmation, affection, and flattery for joining , creating a sense of instant community with shared values	Social media platforms shower users with positive notifications after joining , while personalized feeds create the perception of a community “just like you”
EXPLOITING CONFIRMATION BIAS	Cults adopt techniques like self-reinforcing circular logic to disorient, overload, and confuse members in order to program new beliefs which confirm their existing biases	Platforms have personalized feeds, which result in information silos that confirm what users already believe
LEVERAGING FEAR OF LEAVING	Cults use phobia indoctrination — the irrational fear that leaving will cause bad things to happen — to keep members from leaving	Social media algorithms “push” interactions from friends and family, leveraging the fear of missing out (FOMO) for not participating
ABUSING PARTIAL TRUTHS	Cults embrace partial truths to create convincing narratives that align with their goals	Social media algorithms amplify the most engaging content — even if it’s misinformation
RELYING ON LOADED LANGUAGE	Cults construct group member’s thoughts along binary lines , reducing complexities and using phrases meant to close the discussion in favor of the cult’s agenda, e.g., the science is settled	Bots and internet trolls maximize engagement by propagating thought-terminating cliches , e.g., that’s just mainstream media, in order to stop the expansion of knowledge
INCREMENTAL INFLUENCE	Cults practice incremental recruitment and indoctrination — they “meet members where they are” by lying, withholding or distorting information, and slowly introducing more extreme ideas	Social media algorithms that maximize engagement use pacing and leading – they show users content they want which intersects with more extreme content, sending them “down a rabbit hole” of increasingly extreme ideas
WEAPONIZING AWAKENING	Cults use terms like “awakening” to take advantage of members’ motivations (e.g., self-discovery or world improvement) and convince them that members are “awake” to the “right way” while others are not	Social media algorithms that maximize engagement end up proliferating content that encourages people to think they’re un-programmable , for example, with the terms “woke” and “red pill”
