

Newsletter 6/6/22

Welcome to our Monday Edition newsletter with curated news of the day, plus memes at bottom.

Today's Zoom session we'll have an open discussion of news of the day, share a little from last Saturday's community organizing meeting, and address the question that Dr. Mercola raises in an article today: "Can we just 'forgive and forget' with the COVID jab zealots who've been attacking us?"

Nervous system manipulation by electromagnetic fields from monitors (US Patent)

Interesting quote from the text:

"Certain monitors can emit electromagnetic field pulses that excite a sensory resonance in a nearby subject, through image pulses that are so weak as to be subliminal. This is

unfortunate since it opens a way for mischievous application of the invention, whereby people are exposed unknowingly to manipulation of their nervous systems for someone else's purposes. Such application would be unethical and is of course not advocated. It is mentioned here in order to alert the public to the possibility of covert abuse that may occur while being online, or while watching TV, a video, or a DVD."

RULES OF CIVIL CONVERSATION

1	I will try to reach a shared understanding rather than 'win the argument'.	2	I will clarify with others to make sure I genuinely understand their perspective.
3	I shall endeavor to avoid committing logical fallacies in support of my claims.	4	I will attempt to account for my own biases and try to be intellectually humble.
5	I will also try to be reasonable, rational, and create coherent arguments.	6	I may challenge ideas, but will refrain from personal attacks and mean-spiritedness.
7	I will use the 'Principle of Charity' to interpret others' points of view in the best light.	8	I promise to remain genuinely receptive to changing my mind.
