Welcome to our **Friday Edition** with curated news of the day. If a [recent spate of solar flares](#) is any indication, we're seeing full crazy now on a number of fronts. James Howard Kunstler captures the zeitgeist perfectly today: **The Meaning of Incredible:** *We're witnessing the destruction of every institution in the land and nobody knows how to stop it...*

CDC Announces Overhaul After Botching Pandemic

BY TYLER DURDEN www.PeterMcCulloughMD.com WEDNESDAY, AUG 17, 2021 - 11:22 AM

After more than two years of missteps and backpedaling over Covid-19 guidance that had a profound effect on Americans' lives, the Centers for Disease Control (CDC) announced on Wednesday that **the agency would undergo a complete overhaul** - and will revamp everything from its operations to its culture after failing to meet expectations during the pandemic, [Bloomberg](#) reports.

C19

Director Rochelle Walensky began telling CDC's staff Wednesday that **the changes are aimed at replacing the agency's insular, academic culture with one that's quicker to respond to emergencies**. That will mean more rapidly turning research into health recommendations, working better with other parts of government and improving how the CDC communicates with the public. - [Bloomberg](#)

EM & Privacy Advice from subscriber James G:

The technology used to sell us shit we speak about around microphones is called Automatic Content Recognition and spoken about at lectures all over the world.

https://en.wikipedia.org/wiki/Automatic_content_recognition

I believe the only way to have a private conversation these days is to lock your cell phones in the car and take a walk in the woods. I use trim tape over my cameras on my phone. black electrical tape degrades and leaves sticky glue all over the place.

https://www.amazon.com/Super-Strength-Molding-Tape-03614/dp/B002JOVUO0/ref=sr_1_5?crid=10UZYG3CMSMLB&keywords=trim+tape+for+car&qid=1659924683&srefix=trim+tape+%2Caps%2C145&sr=8-5

My iPhone 12 has two cameras and i drape the tape right over them on the front of the cam. I also cut I small square to use over my front-facing cam. I also put my phone in airplane mode often and put the phone in a faraday bag.

https://www.amazon.com/Blocking-Shielding-Protection-Anti-Tracking-Anti-Spying/dp/B07JWF1WT4/ref=sr_1_7?keywords=faraday+bag+for+phone&qid=1659924584&sr=8-7

it gets worse because NSA is using Stochastic Resonance to pick up our body and Brain's frequencies when we are near any electronic devices. this can be blocked with White, Brown, or Pink Noise with one of these boxes. these really help with sleep issues.

https://www.amazon.com/dp/B07RWRJ4XW?ref=nb_sb_ss_w_as-reorder-t1_ypp_rep_k0_1_15&crid=28VFD6BTJF1P9&srefix=noise+for+sleep I learned above from the logicismyfriend whistleblowers report.

Many truth activists are hit with 40-hertz caffeine frequencies every hour so they never get any REM sleep. if you are REM sleep deprived you can't be a motivated activist and it damages your heart etc.

RULES OF CIVIL CONVERSATION

- | | |
|--|--|
| 1 I will try to reach a shared understanding rather than 'win the argument'. | 2 I will clarify with others to make sure I genuinely understand their perspective. |
| 3 I shall endeavor to avoid committing logical fallacies in support of my claims. | 4 I will attempt to account for my own biases and try to be intellectually humble. |
| 5 I will also try to be reasonable, rational, and create coherent arguments. | 6 I may challenge ideas, but will refrain from personal attacks and mean-spiritedness. |
| 7 I will use the 'Principle of Charity' to interpret others' points of view in the best light. | 8 I promise to remain genuinely receptive to changing my mind. |
