

## Newsletter - Friday, September 16, 2022

Welcome to our **Friday Edition** with curated news of the day and **Memes** at the bottom. The **CDCs lies continue to get exposed** as reporting and studies on adverse events, including deaths, pile up, and the **US military's no-holds-barred vax pressure strategy continues to lose in court**. More studies show the **negative impacts of the past 2 years on children's development**. In NH, the **primaries are over**, and the results are **upending the status quo** again. In economics, the **rail strike has been averted**, but the **stock market continues to tank** while **inflation rages**. Meanwhile, **NATO doubles down in Ukraine**, but the real story cannot be found on any mainstream media outlet.

**For our 9/24 event**, we're pleased to announce that the newly forming **New England Chapter of Children's Health Defense** will be joining us. The event will feature a **panel of the health freedom group leaders**, and **Rep. Jim Kofalt of 603 Alliance** will speak on **bridging the political divide**. The event will offer participants a massive networking opportunity to meet with participating groups and with folks near you to create a mutual support group in the face of oncoming supply chain and other economic disruptions. More info below.

# LEGO Unveils New Genderless Bricks With No Male/Female Connectors

BILLUND, DENMARK—As part of its new push toward inclusion and diversity, LEGO has unveiled a new set of genderless bricks without male or female connectors. The entirely smooth bricks have no suggestive male nubs or female receptors and instead have entirely smooth, androgynous sides all around.

"This represents a new era in inclusive building bricks!" said LEGO spokesperson Bjørn Irkestøm-Slater Walker. "Finally -- anyone can play with our LEGOs without being triggered by those horrid male and female parts that imply they're only supposed to fit in one direction. Every brick can stack on any other brick without anyone misgendering anything or making a brick feel bad because it only fits in one way."
