SOVEREIGNTY NOTICE:

No one is telling you what to think or believe, or even what is true. Articles and videos offered here do NOT imply any kind of imprimatur of truth or finality on the part of anyone in Rise Up NH, but are offered for consideration as partial perspectives towards gaining a fuller picture of what's so. In general, we do not repeat the ubiquitous mainstream narratives, though most items reference these in their arguments. Please do your own research, suspend final conclusions in favor of continuing research, ignore what doesn't ring true for you, and always make up your own mind. Collective sense-making is a path, not a destination.

CELEBRATING THE WHOLE CHILD

I have over 20 years of experience as an occupational therapy practitioner, and I am offering support to families with life skills, sensory strategies, regulation, children's yoga and mindfulness as well as strategies for visual motor and visual perception success. I offer extensive experience working with children with a wide variety of learning styles and abilities. Contact Alison a-lovejoy@comcast.net for additional information on how to receive individual consultations and supports.

Help Support Local Student's Singing Tour

I am going on a singing tour in Spain with my choir, the Cecelia Ensemble in April. In order to go, we have to do fundraising to pay for the tour. One thing I am doing is selling raffle tickets. The tickets are for a chance to go on an all-expenses-paid 3-day weekend trip to either London or Paris, your choice! The brochure with all the information is here:

<https://bit.ly/3Tb9CHi>. The tickets are \$20. Email artsybobcat2@gmail.com to get a ticket.

The deadline to buy tickets is November 1st (the drawing is November 14). If you are interested, or know anyone who is interested please email back and let me know! I would really appreciate the help.

Thanks,

Cadence, daughter of Brenna (Stoddard)

Why Actor Tim Robbins's Apology Matters - James Lyons-Weiler

Daniel Schmachtenberger: "Modeling the Drivers of the Metacrisis"

Human's ability to develop and use tools is one of our greatest strengths - yet has also led to increasing destruction of the natural world. How does technology intensify the binding effects of a world order based on growth? Is there any way out - or could global solutions just make the problem worse?

Iain McGilchrist: 'We Need to Act'

In this conversation with Rebel Wisdom's David Fuller, psychiatrist, neuroscience researcher, philosopher and literary scholar McGilchrist talks about how our current culture's domination by a 'left brain', reductionistic, materialist and literalist perspective had reached crisis point. He explains how this is manifesting as a 'war on reality', and a series of attacks on free speech.

The Endgames of Bad Faith Communication - and Recovering Good Faith Communication

Seeking to understand others and communicate honestly is an essential democratic virtue.

Can it be maintained in the digital age?

<https://consilienceproject.org/endgames-of-bad-communication/>

Good Faith Communication: discourse oriented towards mutual understanding and coordinated action, with the result of increasing the faith that participants have in the value of communicating.

Some Signs of Good Faith Communication:

- Expressions of humility and curiosity
- Openings for changes in position based on new information
- Disagreements welcomed; group learning valued
- Steelmanning the position of others
- Respect maintained during disagreement
- Sufficient time given to open discussion and other aspects of fair process
- Use of careful clarifications and evidence
- Attempts at finding shared base realities and values
- Emergence of new positions, integrations, and nuance

Note: All signs of good faith communication can be “faked” in bad faith.

Bad Faith Communication: discourse that is intended to achieve behavioral outcomes (including consensus, agreement, “likes”) irrespective of achieving true mutual understanding, with the result of decreasing the faith participants have in the value of communicating.

Some Signs of Bad Faith Communication:

- Expressions of hubris and lack of curiosity in opposing views
- Refusing changes in position based on new information
- Disagreements unwelcomed; consensus overstated
- Strawmanning the position of others
- Disrespect included as part of disagreement
- Insufficient time and other aspects of unfair process
- Avoidance or omission of careful clarifications and evidence
- No attempts to find shared base realities and values
- Emergence of stalemates, polarization, and simplifications

Note: All signs of bad faith communication can be disguised and denied.

RULES OF CIVIL CONVERSATION

- | | |
|---|---|
| 1 I will try to reach a shared understanding rather than 'win the argument'. | 2 I will clarify with others to make sure I genuinely understand their perspective. |
| 3 I shall endeavor to avoid committing logical fallacies in support of my claims. | 4 I will attempt to account for my own biases and try to be intellectually humble. |
| 5 I will also try to be reasonable, rational, and create coherent arguments. | 6 I may challenge ideas, but will refrain from personal attacks and mean-spiritedness. |
| 7 I will use the 'Principle of Charity' to interpret others' points of view in the best light. | 8 I promise to remain genuinely receptive to changing my mind. |
