

Newsletter - Friday October 4, 2022

Welcome to our **Friday News Edition**. The big brouhaha this week emerges from Emily Oster's article in the Atlantic asking for amnesty for those who believed in the COVID propaganda, but significantly, without much real accountability. ("We didn't know" and "there was a lot of uncertainty" are just as vacuous as Nuremberg's "We were just following orders"). James Howard Kunstler captures the zeitgeist of our reaction in his article today, "**Emily Oster's Plea Bargain**," which he calls a "shuck-and-jive from America's broken thinking class": <https://kunstler.com/clusterfuck-nation/emily-osters-plea-bargain/>. Charles Eisenstein weighs in on the same issue with specifics on what needs to happen for amnesty to be a real option: "**Amnesty, Yes—And Here is the Price**" (read or listen): <https://charleseisenstein.substack.com/p/amnesty-yesand-here-is-the-price/>. Finally, satirist JP has his turn (a serious take): "**PANDEMIC AMNESTY?! Give me a Break**" (19 minutes): <https://youtu.be/nYhq-N06ub0>. JP makes a good point that Oster's trial balloon may yet be another psy-op because the controllers are hell-bent on keeping people fighting against each other instead of against them.

So, what should be our response when the whole COVID psyop is finally seen and understood broadly? Where do you come down on the question of forgiveness versus punishment, and for whom? We will consider these questions in our zoom conversation this coming Monday. Click on the button to join:

1PM Monday Zoom

During our 10/31/22 Zoom we examined a number of shifting social, political and scientific paradigms and how they are presaging deep change for our culture. We also considered at the "light in the dark" of the COVID era by asking the question, "What good has come out of the plandemic for you?" Participants shared some of their stories of the unexpected positive outcomes from the past 3 years. Some context for this conversation is offered by the article, The Stockdale Paradox and the Future of Liberty, <https://www.aier.org/article/the-stockdale-paradox-and-the-future-of-liberty/>. Watch the zoom recording here: <https://www.brighteon.com/b1bbd787-a5f3-43fe-acc1-b5800876ca87>.

Exclusive Screening and Discussion of The Abortion Talks - The Heterodox Academy

The Abortion Talks, a new documentary, examines the six-year clandestine dialogue that took place between three abortion-rights and three anti-abortion leaders in the aftermath of the 1994 Brookline clinic murders. Not yet publicly released, it offers a convincing look at the value of constructive disagreement around an emotionally-charged topic that is front-of-mind for many of our students. Can we learn from these efforts?

For either viewing, the link will be live for nine hours only:

Thursday, November 10, 6:00 p.m. ET

Tuesday, November 15, 6:00 p.m. ET

Register free for either session at <https://heterodoxacademy.org/events/exclusive-screening-and-discussion-of-the-abortion-talks-november-15-2022/>

The 90-minute screening will be followed by a 30-minute pre-recorded discussion between HxA's Kyle Vitale and the filmmakers, HxA Member Sarah Perkins and Josh Sabey, on how the film's topics translate to campus and higher education today.

This stands as deductive confirmation and proof of our prior analysis (below) showing the CDC exploited superfluous (specious MCoD and made up) deaths in order to arrive at its Vax and UnVax CFR estimates.

Q.E.D. 🧐

[click for detail](#)

Rates of COVID-19 Deaths by Vaccination Status and 2+ Booster Doses* in Ages 50+ Years
April 03, 2022–July 30, 2022 (27 U.S. jurisdictions)

The Sun Also Rises – The CDC's Disinformation

The CDC published guidance that the unVax are dying more from Covid (12x) as of the week of 10 July 2022.

144
Risk of Death from COVID-19

However, the CDC did not do a gross-sum reference check on their deaths per 100,000 population study results, in order to make sure those results were plausible when reverse-compared to their own actual published US statistics (MMWR Report, week of 10 Jul 2022) and applied to the actual US population and cohort set.

Reconciliation of CDC Vaccinated Deaths and Cases vs CDC's Own MMWR Data

3 dose	274.15	42,738,258	117,187	1.70	0.820%	727		
4 dose	235.97	8,883,417	20,952	0.85	0.360%	76

Over 50 ratio via statista.com

Equivalent Added Deaths

Added Deaths over Actual

5,198

1,809

1,589

77%

Their closed-system math, applied to the US population = 3,198 persons (50+) dying in the US, the week of Jul 10, 2022 – when in fact, only 1,809 died, by the CDC's very own MMWR reporting. Manipulating the Unvax Cohort to any size desired, still fails to resolve this issue.

They invented 1,389 deaths (heavily in the Unvax cohort) in order to create the cohort death rate differential.

This is a heartbreaking watch. Yesterday the British Heart Foundation announced 30k excess cardiac deaths in England. Multi factorial for sure but we now have mechanistic, RCT & associational data linking the mRNA product to cardiovascular events. It's likely a primary driver.

I will also try to be reasonable, rational, and create coherent arguments.

6

I may challenge ideas, but will refrain from personal attacks and mean-spiritedness.

7

I will use the 'Principle of Charity' to interpret others' points of view in the best light.

8

I promise to remain genuinely receptive to changing my mind.
