Welcome to our **Friday News Edition** with curated news of the day. There is a huge tension in the air, where on the one hand the Biden administration doubles down on boosters for babies and everyone else, the WHO/Gates/Pharma pushes new simulations, pandemics and treaties, the US Military Command squawks to keep poisoning our troops, FTX and Twitter expose rampant fascism and corruption, and Fauci jabs Santa Claus, while at the same time the evidence for vaccine harms just keeps accumulating, whether through shedding, mother's milk, microscopic evidence of the spike going all over the body, sudden deaths continuing, clots found by embalmers, insurance claims climbing -- all revealed through more newly published papers, data crunching, books, movies, and other exposés. ***Something's got to give, and soon.***

For those in the Monadnock region: there will be a **Holiday Party Coffeehouse with Open Mic at Restoring Eden in Gilsum** tomorrow, **Saturday December 17 starting at 4PM** (weather permitting). Details in the Events section below.

Rise Up NH Weekly Zoom - 12/12/22 - This past Monday we had a conversation about starting a relocation book study group and a local trading experiment; we also discussed Keene City's planned downtown redesign, job adverse effects, and more.

This is important, and frankly concerning. This chart shows excess mortality (using 2019 as the baseline) by month and 10-year age group (15-24 through 85+) with COVID-19 underlying cause of death removed.

In other words, deaths above 2019 after COVID-19 removed.
