Welcome to our **Friday News Edition** with curated news of the day. We're wishing everyone a healthy, warm and peaceful holiday. Thank you for being part of our community, and for carrying the light of truth and wisdom in the face of massive resistance. The Truth will win in the end!

Please note that **we will not be hosting a zoom for the next two Mondays due to holidays; we will resume on January 9**. There will be no newsletters on those Mondays, either.

This past Monday's zoom featured an open conversation on news of the day, the Economy, Twitter Files, Medical Propaganda and more. Watch here:

To kick off our Winter Conference season we have invited the NOFA/Mass Keynote Speaker Ira Wallace, of the Southern Exposure Seed Exchange, to share with us the importance of food security and how seed saving continues to play such an important role in feeding our communities. We hope you will join us for this free, virtual event on January 10 from 12 PM – 1 PM.

Independent Pharmacovigilance Report Confirms Evidence for Recall of Covid-19 Vaccines

Adverse Reactions for Novel Covid-19 Vaccines More Numerous Than for Similar Products by Factor of Between 10 and 169

BATH, UK – A [new report](#) prepared by the World Council for Health (WCH) has confirmed that data on adverse drug reactions from the experimental Covid-19 vaccines exist in an amount sufficient for the recall of similar products in the past.

[The report](#) was prepared to determine whether sufficient pharmacovigilance data exist on official and public databases (WHO VigiAccess, CDC VAERS, EudraVigilance, and UK Yellow Card Scheme) to establish a safety signal on the novel Covid-19 injections.

Here are some more words that Stanford doesn't want it students and faculty using anymore. My favorite is the word "brave" how they wrote that there is literally no replacement for it to stop saying it all together.

Lmao.

stand up meeting	quick meeting	Ableist language that trivializes the experiences of people living with disabilities.
insane	surprising/wild	Ableist language that trivializes the experiences of people living with mental health conditions.
Brave (n)	none/do not use	This term perpetuates the stereotype of the "noble courageous savage," equating the indigenous male as being less than a man.
American	US Citizen	This term often refers to people from the United States only, thereby insinuating that the US is the most important country in the Americas (which is actually made up of 42 countries).
user	client	While often associated with one who uses (software, systems, services), it can also negatively be associated with those who suffer from substance abuse issues or those who exploit others for their own gain.

oraclegirl The truth always wins. Not your truth or my truth. Nature. It doesn't matter how evil or criminal it gets, in the end there is no more pathway. It just takes longer when so few will tread any other path themselves. But that doesn't really matter. It takes a handful per million to align with nature's principles and when the time is right, the results are cataclysmic. A small number globally is emerging who simply will not compromise. They can't do anything else. Their frequency is the game changer - it doesn't lie in the hands of those in power. Can you see what I am saying? It is simply too late for those who lie, kill and destroy. Also those who support them. The reawakening of a few key groups the world over is currently firing a revolution. Nature comes first and so does love. Finally only truth and peace can follow. [#oraclegirl](#)

3 things to remember to help you move forward :

The life in front of you is more important than the life behind you.

Ask yourself if what you are doing today is getting you closer to where you want to be tomorrow.

Don't be a prisoner of your past.
It was just a lesson, not a life sentence.
