Subscribe here (free): <https://riseupnh.org/get-involved/>

Welcome to our **final 2022 newsletter**, a **Combined News & Solutions Edition** with curated news of the day and memes at bottom.

From all accounts, 2023 is going to be a year of unprecedented chaos and change. The truth is slowly emerging into mass consciousness, while the controllers double down using all the tools of totalitarian statecraft at their disposal. This is why we've been focusing on "knowing your neighbors" and considering alternate systems for food, money, health, education and more. 2023 is the time to start those conversations with the people around you.

If you're not one of the 29 people who've donated to keep Rise Up NH going, please considering doing so today -- it's tax-deductible. [\*\*\*PLEASE DONATE TODAY to support our efforts. Your support makes a world of difference. Thank you!\*\*\*](#)

Please note that **we will not be hosting a zoom this coming Monday due to holiday; we will resume on January 9.**

# Jab & Plandemic News

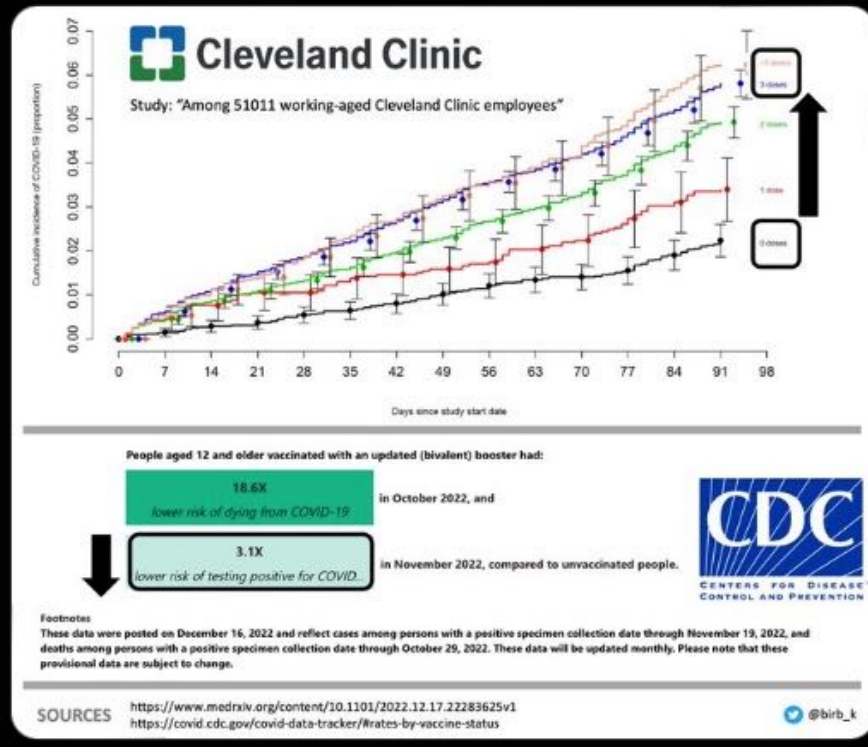

KBirb @birb\_k · Dec 23

One of these can't be true:

- ◆ CDC: significantly LOWER incidence of covid among bivalent boosted vs unvaccinated.
  - ◆ Cleveland Clinic study, 51,000+ employees: significantly HIGHER incidence of covid among bivalent boosted compared to unvaccinated.
- This is not a trivial issue.
