BREAKING: Major systematic review finds large injection death rate. Adverse effect data has been ignored or downplayed.

medrxiv.org/content/10.110...

Click for paper

38 **Abstract**

39

40 *Introduction:* Serious harms of the COVID-19 vaccines have been underreported in
41 published trial reports.

42 *Methods:* Systematic review of papers with data on serious adverse events (SAEs)
43 associated with a COVID-19 vaccine.

44 *Results:* We included 18 systematic reviews, 14 randomised trials, and 34 other
45 studies with a control group. Most studies were of poor quality. The most reliable
46 one was a systematic review of regulatory data on the two pivotal randomised trials
47 of the mRNA vaccines. It found significantly more SAEs of special interest with the
48 vaccines than with placebo, and the excess risk was considerably larger than the
49 benefit, measured as the risk of hospitalisation. The adenovirus vector vaccines
50 increased the risk of venous thrombosis and thrombocytopenia, and the mRNA-
51 based vaccines increased the risk of myocarditis, with a mortality of about 1-2 per
52 200 cases. We also found evidence of serious neurological harms, including Bell's
53 palsy, Guillain-Barré syndrome, myasthenic disorder and stroke, which are likely due
54 to an autoimmune reaction, as has been suggested also for the HPV vaccines. Severe
55 harms, i.e. those that prevent daily activities, were hugely underreported in the
56 randomised trials. These harms were very common in studies of booster doses after
57 a full vaccination and in a study of vaccination of previously infected people.

58 *Discussion:* Serious and severe harms of the COVID-19 vaccines have been ignored or
59 downplayed, and sometimes been deliberately excluded by the study sponsors in
60 high impact medical journals. This area needs further study. Authorities have
61 recommended virtually everyone get vaccinated and receive booster doses. They fail
62 to consider that the balance between benefits and harms becomes negative in low-
63 risk groups such as children and people who have already acquired natural
64 immunity.

Culture War: A Moment of Sanity in Maine

Paradigm Expanding

NonDuality and the Science of Consciousness - Peter Russell

The spiritual teaching of nonduality teaches that consciousness is the primary reality, whereas the current scientific worldview holds that the physical world is primary. Peter Russell proposes that the reconciliation of these two apparently opposed views problems lies in the recognition that information is fundamental to both realities, and physical reality, as we conceive of it, is but a representation of the external world appearing in the mind. This turns our current worldview inside-out; and into one that both beliefs can inhabit.

RULES OF CIVIL CONVERSATION

1 I will try to reach a shared understanding rather than 'win the argument'.

2 I will clarify with others to make sure I genuinely understand their perspective.

3 I shall endeavor to avoid committing logical fallacies in support of my claims.

4 I will attempt to account for my own biases and try to be intellectually humble.

5 I will also try to be reasonable, rational, and create coherent arguments.

6 I may challenge ideas, but will refrain from personal attacks and mean-spiritedness.

7 I will use the 'Principle of Charity' to interpret others' points of view in the best light.

8 I promise to remain genuinely receptive to changing my mind.
