Welcome to our **Friday News Edition** with curated news of the day and memes at bottom. Bigs news continues to be the fallout (literally and figuratively) of the Ohio train derailment and burning of toxic compounds, the truth about the Nordstream pipeline bombing, Biden's kowtowing to the WHO on the Pandemic Treaty, the cratering economy and inflation, and much more. And of course, full coverage of the growing cracks in the wall regarding vaccines, masks, and other pandemic measures.

On the local front, join us in Keene Thursday March 16 6PM for a **Community Game and Acoustic Music Jam** Evening, and on Saturday April 1 for our fledgling **LETS Barter Faire** -- see the Events section below for details.

Abnormal Clinical & Lab Findings Mortality continues to hover at or near its Jan 7 peak. The fact that flu-pneum dropped 70%, but this ICD code has not, is disconcerting.

This predicts Excess Non-Covid Natural Cause Mortality (the factor which competent analysts examine).

Real Center and Provisional Weekly Provisional Cause of Death by State and Select Cause, 2020-2023. <https://www.cdc.gov/nchs/nwsp/Provisional-Cause-of-Death-by-State-and-Select-Cause.pdf>

The R00-R99 ICD code is used to temporarily hold deaths which need additional review before assignment to their final ICD code. In the past this avg weekly arrival came in at about 2,950 deaths. However, beginning at the start of 2021, and increasing until 23 April 2022, this bucket grew 65% in magnitude. This trend did not commence with Covid itself. Rather, it began with introduction of the vaccine into the population and has not abated as of this particular chart's publication. In fact, the trend is still slightly up.

In addition, those deaths which are tagged here, in the past cleared to their final code after around 20 weeks. Now they are taking well over 40 weeks. This makes those final destination ICD codes (heart, cancer, etc) falsely appear as if they have less excess mortality.

Collapse of the Peace Movement, Part I

20 years ago, the Feb. 15, 2003 global protests shook the world and the establishment. The "peace movement" never tried that again, instead incorporating itself into the Democratic Party. So it died.

*The most stunning medical quote ever
made by a Harvard Professor !*

(1923 -2001)

"The FDA protects the big drug companies, and is subsequently rewarded, and using the government's police powers, **they attack** those who threaten the big drug companies. People think that the FDA is protecting them. **It isn't.** What the FDA is doing, and what the public thinks it is doing are as different as night and day"

Former commissioner of the U.S. F.D.A
(Made this comment in the year 1969)

**The unvaccinated
are not a threat to
society.
They are a threat to
authority.**

Human beings are not biologically dependent on pharmaceutical products for survival.

Pharmaceutical companies are financially dependent on human beings for survival.

I fear people are not fully grasping the magnitude of what is going on here.

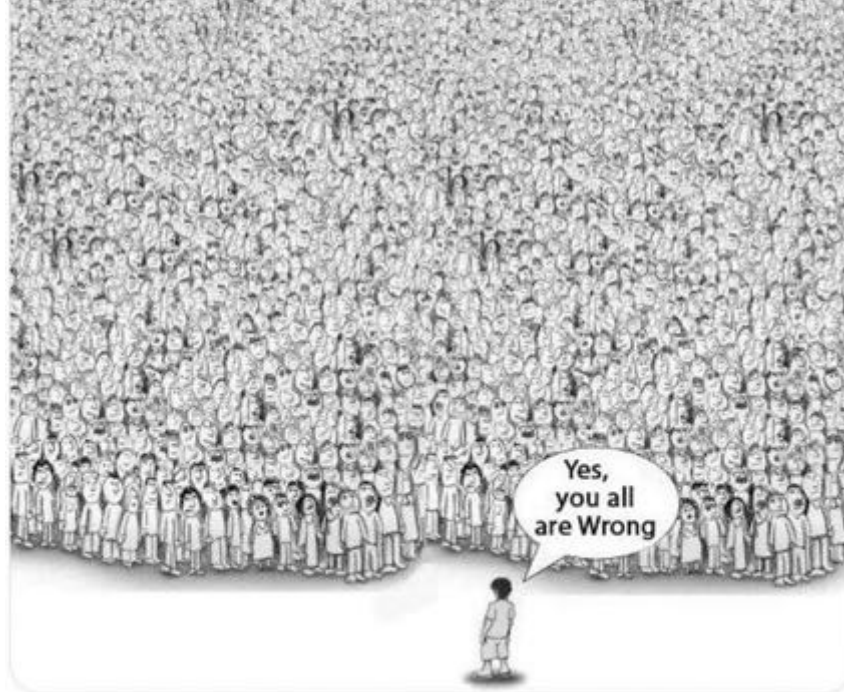

Pharma companies making viruses that they also sell the cure for... should have every single human on Earth in an uproar.

This is the equivalent of Doctors shooting people in the street, so they can make money off of the victims' medical bills.

Except this on a global scale, infected billions, killed millions, and forced/coerced billions to become lab rats so they could profit.

**"In questions of science, the authority
of a thousand, is not worth the humble
reasoning of a single individual"**
