Welcome to our **Friday News Edition** with curated news of the day and memes at bottom. Lots of positive news, including more truth (and self-admissions) breaking through to the mainstream. Plus, more detail on how the US's COVID-19 response came to be entirely DOD-controlled. *We have anonymized the recently censored subst@ck links, so hopefully all of this goes through today.*

Rise Up NH Weekly Zoom - 1/30/23 - On Monday we discussed how to speak truth while being kind to others who have not yet understood what is going on - especially when, for example, mutual decisions about hospitalized family members enter the equation. How are the internet and the media both helping and hindering these efforts? Regarding the public lies and fraud, should we expect/demand apologies from those in medicine, science and media? Should we offer an amnesty period or hold truth and reconciliation hearings? Click to watch: <https://www.brighteon.com/63793dc3-991a-4ba7-82b9-1b9acd88e9e1>

I love that the mainstream media position is "yes the CIA did bad things in the 50s, 60s, 70s, 80s, 90s, and 2000s but nobody was ever prosecuted and there were no reforms so now they don't do bad things today you conspiracy theorist."
