Welcome to our **Friday News Edition** with curated news of the day and memes at bottom. With Jan 6 and COVID lies and government-led censorship all being exposed, the liars are doubling down or melting down.... Are there no adults in the room? James Howard Kunstler deftly captures the zeitgeist of a world on the brink of a mental breakdown with his article today, **Everything, All at Once**: <https://kunstler.com/clusterfuck-nation/everything-all-at-once/>.

On Monday's Zoom, we discussed the **Latest on Food Security** - Bill Rogers kicked off the discussion with the war on eggs, specifically claims for the bird and avian flu (using the unreliable PCR test), and possible causes such as high-glyphosate feed. We discussed last weekend's "[The Attack on Food Symposium + Solutions to Fight Back](https://www.brighteon.com/f741cc92-837d-4428-96f3-31aad596b578)" hosted by Dr. Meryl Nass and Childrens Health Defense, and related topics. LETS Barter! An experimenting in the Local Exchange and Trading System

The Village Church, Swanzey NH

Direct barter depends on both people having something the other wants and so often doesn't work. Local Exchange Trading Systems allow one to trade with a group by using something to represent the value of the thing wanted and making a trade. In the below cartoon, a piece of paper with 10 on it represents the value of the items wanted. By trading around the piece of paper, everyone gets what they need. At the end of the day, the piece of paper isn't needed anymore. Another way to look at it is that one is trading with a group rather than with an individual.

Study: VERY HIGH-DOSE MELATONIN (1000 mg) achieves stable disease in 54% of very advanced, palliative-only cancer patients. 🤔👁

A Preliminary Phase-2 Study with very High-Dose of Melatonin (1000 mg/day) in Untreatable Advanced Cancer Patients

Unfortunately, although there are a lot of experimental evidences that MLT is completely non-toxic, no oncologist seem to be interested to the clinical use of MLT in the treatment of human neoplasms, at least from a palliative point of view. However, a few number of clinical studies of MLT in the complementary treatment of cancer has demonstrated that the anticancer activity of MLT is a dose-dependent phenomenon. On this basis, a preliminary study with a very high dose of MLT, consisting of 1000 mg/once day in the evening, was carried out in untreatable cancer patients, who failed to respond to the conventional anticancer therapies, and for whom the only available treatment was the palliative therapy. The treatment was well tolerated, and a disease control was achieved in 54% patients. These preliminary results would justify further clinical studies to generate a new interpretation of cancer control, consisting of the pharmacological reproduction of the same mechanisms responsible for the natural resistance against cancer development.

Excessive faith in science is epistemologically unsound.

No, that's not true!
That's impossible!

The scientific method has limits.
Insisting otherwise is a dogma called scientism. Look it up.

Nooooooooooooooooo!!

I have lived to see man made horrors beyond my imagination:

They were the darkest of times, they were the sciency of times.

Science used to be a systematic approach of continual questioning, experimentation, and discovery.

It is now an infallible corporate-backed dogma that only selectively ordained "experts" are allowed to know or speak of.

It is no longer science, but a dangerous religious cult.

RULES OF CIVIL CONVERSATION

1	I will try to reach a shared understanding rather than 'win the argument'.	2	I will clarify with others to make sure I genuinely understand their perspective.
3	I shall endeavor to avoid committing logical fallacies in support of my claims.	4	I will attempt to account for my own biases and try to be intellectually humble.
5	I will also try to be reasonable, rational, and create coherent arguments.	6	I may challenge ideas, but will refrain from personal attacks and mean-spiritedness.
7	I will use the 'Principle of Charity' to interpret others' points of view in the best light.	8	I promise to remain genuinely receptive to changing my mind.
