Welcome to our **Friday News Edition** with curated news of the day and memes at bottom. Big news continues to be the global financial meltdown, and whether this was by design to help usher in global financial control such as CBDCs. Either way, the abject corruption and mendacity of the elite class are on full display, with the casino of derivatives a time bomb just waiting to go off. On the third anniversary of the pandemic, Fauci and the FDA are pushing more jabs for tots, the MSM is now touting a "raccoon dog" CV19 origin theory, all the while the evidence continues to mount that it was the US Department of Defense, fronted by Fauci, that ran the whole psyop, while the CDC, empowered by Big Tech, surveilled the US population for lockdown compliance. Dr. David Martin puts the lab leak theory to bed once and for all, and reports on encouraging developments in prosecuting the pandemic promoters. Further evidence that the globalist narrative and control are slipping (in addition to the J6, Biden-CCP money, Twitter files gov't-run censorship, and Nord Stream bombing disclosures) shows up in revelations about mercury toxicity, fluoride effects, Lyme disease as a bioweapon, cell phone radiation harms, and bogus rabies shots for pets -- all covered below. Finally, on the international front, The Dutch Farmers have just won a large plurality in their national elections, and the French are revolting as Macron bypasses parliament to enact higher retirement age rules.

With the narrative and authoritarian structures and many societal guardrails being breached, one could be forgiven for being anxious. But the chaos and breakdown is the necessary cost of revealing the madness of our current system. Let's not let ourselves get too distracted by the drama, and keep our eyes on the prize of (and keep actively working towards) a saner and more beautiful world on the other side. Best to stock up on (organic) popcorn, it's gonna be one helluva show.

Have a great weekend!

Over 40% also wanted anyone who criticized the covid shot fined & imprisoned. Over a quarter wanted those who didn't get the covid shot to have their kids seized. Now they're trying to pretend none of this ever happened. There must be consequences.

- The details are still being worked out and adjustments will be made as necessary, but the newly-established gardens will be planted this spring with a variety of vegetables. Some medicinal herb plant starts will be available as well.
- Initially either “pick your own” or order ahead to have produce ready for pick-up.

LETS Barter! An experimenting in the Local Exchange and Trading System

The Village Church, Swanzey NH

Direct barter depends on both people having something the other wants and so often doesn't work. Local Exchange Trading Systems allow one to trade with a group by using something to represent the value of the thing wanted and making a trade. In the below cartoon, a piece of paper with 10 on it represents the value of the items wanted. By trading around the piece of paper, everyone gets what they need. At the end of the day, the piece of paper isn't needed anymore. Another way to look at it is that one is trading with a group rather than with an individual.
