Justin Hart's summary of Twitter Files #19: Sinister Surveillance & Suppression: The Shocking Secrets of the Virality Project

The approach of the Virality Project to digital censorship evolved from judging content based on truth or falsehood to focusing on controlling political narratives at the expense of facts. This Orwellian system of information suppression was a resounding success, as government, academia, and an oligopoly of powerful corporations quickly organized behind a secret, unified effort to manipulate political messaging.

Organic Produce in Acworth

- Garden access will be run as a P. M. A.
- The details are still being worked out and adjustments will be made as necessary, but the newly-established gardens will be planted this spring with a variety of vegetables. Some medicinal herb plant starts will be available as well.
- Initially either "pick your own" or order ahead to have produce ready for pick-up.

NH Legislation & Political Action

From RebuildNH (recommendations are theirs):

Key Bills Head to the House Floor

TERMS:

LOB: Legislative office building

ITL: Inexpedient to Legislate

OTP: Ought to Pass

Re-refer or Retain: This means the bill will remain in committee and not taken up again until next year

Wednesday, March 22nd, N.H. House

House Floor Vote

HB 10, SUPPORT OTP, establishing the parental bill of rights. With the amount of press this bill has received, I don't think it needs much explanation. This bill requires that parents be able to know exactly what happens to their children in public schools.

HB 539, SUPPORT OTP, relative to vaccination clinics at schools. The bill would ban vaccination clinics occurring during school hours in public schools. There have been multiple reports of children receiving vaccines during school hours without parental approval in NH and this important bill would prevent further possibility of these oversights.

HB 127, SUPPORT OTP, relative to the declaration of a state of emergency. This is the common sense state of emergency reform bill that Governor Sununu vetoed last year that simply forces both chambers to agree to extend an emergency after three, 21 day renewals by the governor.

HB 69, SUPPORT OTP, relative to direct payment and membership-based health care facilities. In NH currently, all hospitals and clinics must accept Medicaid, Medicare, and insurance, making them subject to federal government regulation. NH has direct payment and membership based primary care and we have noticed a trend of open-minded and alternative practitioners breaking free of regulations by converting their practices to this model. We need to allow hospitals and clinics such freedom and create more free market health care options to reduce costs and drive transparency.

HB 114, OPPOSE OTP, relative to the age at which a minor may receive mental health treatment without parental consent. This bill seeks to allow children as young as 16 years old to receive mental health treatment without parental permission or notification.

HB 557, SUPPORT OTP, relative to the department of health and human services' rulemaking authority regarding immunization requirements. Currently there are two ways that a vaccine can be added to the school requirement schedule: either through law, which

requires the legislature to pass a bill, or through the rulemaking process, unilaterally proposed by the commissioner of DHHS. This bill seeks to eliminate the ability of the department to add vaccines to the school schedule through rulemaking.

HB 575, OPPOSE ITL, relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions. This bill prohibits the state and its political subdivisions from purchasing, promoting, or distributing vaccines or any pharmaceutical product without human clinical trials, as we did with the Covid booster.

HB 575 In Jeopardy

HB 575, relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions, has a recommendation of "inexpedient to legislate" out of committee. We at RebuildNH feel that this is the incorrect recommendation for such common sense legislation.

Action Item

Please email Speaker Packard and tell him that HB 575 is a crucial piece of legislation to protecting the health and safety of New Hampshire citizens.

Note: Please rewrite this sample email in your own words.

Sample:

Dear Speaker Packard,

HB 575 simply prohibits the state of New Hampshire from purchasing, promoting, or distributing vaccines or pharmaceutical products without human clinical trials. This is a common sense piece of legislation. Animal testing is not sufficient and we cannot allow the state to make the citizens of this state into guinea pigs. Opposing this bill is irrational and takes the unreasonable position of supporting state sanctioned experimentation.

I hope that you support this bill and aid in its passage.

Email Speaker Sherman Packard: sherman.packard@leg.state.nh.us

Please email your representatives to support the above recommendations.

LETS Barter! An experimenting in the Local Exchange and Trading System

The Village Church, Swanzey NH

Direct barter depends on both people having something the other wants and so often doesn't work. Local Exchange Trading Systems allow one to trade with a group by using something to represent the value of the thing wanted and making a trade. In the below cartoon, a piece of paper with 10 on it represents the value of the items wanted. By trading around the piece of paper, everyone gets what they need. At the end of the day, the piece of paper isn't needed anymore. Another way to look at it is that one is trading with a group rather than with an individual.

Recipients of Bill Gates' Favorite Vaccine Were Found to Die at 10x the Rate as Unvaccinated Children

A Danish study looked at thirty years of records. And they found that girls who had received the DTP vaccine were ten times more likely to die than unvaccinated children.

"And they were dying not of things that anybody had ever associated with a vaccine," stated @RobertKennedyJr."

"They were dying of anemia and bilharzia (snail fever) and malaria and dysentery (bloody diarrhea) and pulmonary respiratory issues like pneumonia. And nobody had ever connected the dots ... until the Danish scientists came in and actually looked at the data."

RULES OF CIVIL CONVERSATION

1

I will try to reach a shared understanding rather than 'win the argument'.

2

I will clarify with others to make sure I genuinely understand their perspective.

3

I shall endeavor to avoid committing logical fallacies in support of my claims.

4

I will attempt to account for my own biases and try to be intellectually humble.

5

I will also try to be reasonable, rational, and create coherent arguments.

6

I may challenge ideas, but will refrain from personal attacks and mean-spiritedness.

7

I will use the 'Principle of Charity' to interpret others' points of view in the best light.

8

I promise to remain genuinely receptive to changing my mind.
