## Organic Produce in Acworth

- Garden access will be run as a P. M. A.
- The details are still being worked out and adjustments will be made as necessary, but the newly-established gardens will be planted this spring with a variety of vegetables. Some

medicinal herb plant starts will be available as well.

•Initially either “pick your own” or order ahead to have produce ready for pick-up.

## Parental Bill of Rights Take 2

### **Senate Version has a House Hearing**

While HB 10, establishing a parental bill of rights, might have failed in the House last week, the House has another chance to make this right with SB 272, which is the Senate version of the same bill.

We are asking that you attend this hearing.

The far left wing extremists are well funded and organized. They turn out in droves to oppose this common sense legislation and we need to do the same.

This will likely be the last major call to attend a hearing of the year.

Thursday, March 30th, N.H. House  
Education

Room 205-207, LOB ★ 1:00 p.m. – SUPPORT – SB 272, establishing a parent's bill of rights in education.

## Republicans Join Democrats to Defeat Medical Freedom Bills

I wish I had better news to share today, but unfortunately, none of the medical freedom legislation passed the House this week. I'm going to highlight key bills where every Democrat voted against the bill along with which Republicans voted against it, plus their districts and contact information.

### **HB557 - relative to the department of health and human services' rulemaking authority regarding immunization requirements.**

All this bill did was remove the ability for DHHS to add vaccines to the school schedule and make that authority the sole discretion of the Legislature.

Here are the Republican reps who believe that unelected bureaucrats should have the power to mandate vaccines on your children.

**HB575 - relative to vaccine and pharmaceutical products purchased, promoted, or distributed** by the state and its political subdivisions. This bill simply says the state can't promote, purchase, or distribute any pharmaceutical product without human trials. Because mass distributing untested vaccines seems like a terrible idea, correct?

Here are the Republican reps who worship at the feet of the god's of public health so much, that they think New Hampshire should absolutely push untested vaccines on the public.

### **LETS Barter! An experimenting in the Local Exchange and Trading System**

The Village Church, Swanzey NH

*Direct barter depends on both people having something the other wants and so often doesn't work. Local Exchange Trading Systems allow one to trade with a group by using something to represent the value of the thing wanted and making a trade. In the below cartoon, a piece of paper with 10 on it represents the value of the items wanted. By trading around the piece of paper, everyone gets what they need. At the end of the day, the piece of paper isn't*

needed anymore. Another way to look at it is that one is trading with a group rather than with an individual.

If he says ‘two and two are five’ — well, two and two are five. This prospect frightens me much more than bombs.”

— George Orwell  
“Looking back on the Spanish War” (1943)

**This is not the end of  
the world.**

**It is the end of the  
illusion.**
