LETS Barter! An experimenting in the Local Exchange and Trading System

The Village Church, Swanzey NH

Direct barter depends on both people having something the other wants and so often doesn't work. Local Exchange Trading Systems allow one to trade with a group by using something to represent the value of the thing wanted and making a trade. In the below cartoon, a piece of paper with 10 on it represents the value of the items wanted. By trading around the piece of paper, everyone gets what they need. At the end of the day, the piece of paper isn't needed anymore. Another way to look at it is that one is trading with a group rather than with an individual.

It is time we enacted legislation mandating that blood be screened for spike protein and mRNA just like how we screen for HIV etc.; it is way past time as the mRNA technology & spike is deadly

We must move hard and heavy and now to safeguard the blood supply for the unvaccinated; why should an unvaccinated person needing blood get spike protein that could kill them?

From ages 4-12, I wore boy clothes, played boy sports & rejected all things "girly." When my brother teased me for being a girl, I even said that when I got older I would "cut my boobs off." I was not transgender, I just idolized my brother. Thank God my parents were sane.
