Welcome to our **Friday News Edition** with curated news of the day and memes at bottom. While the poisoning of pigs and cows continue to dominate the alt news ("lethal butter"), in today's edition we feature a few non-lethal guns that could still help you protect your home. The Censorship Industrial Complex is in full swing as Facebook jails Seymour Hersh for Nord Stream bombing reporting and the DOJ goes after leftist black groups for questioning the war in Ukraine. In positive free speech news, part 1 of the Fauci Files finally falls on Twitter, the Pentagon Doc Leaks get skewered, and a CIA whistleblower outs Biden and the CIA for Russiagate fabrication during the runup to the 2020 election. Find out more about recent attacks on parents and children in the tranz wars, with a new Project Veritas eposé and a MN bill that will make your blood boil. New papers on Spike dangers are published, and also good news on Canadians, Czechs, and British rising up against tyranny, along with Chicago vax refusers being reinstated with pay plus interest. More FDA shenanigans with jabs and more evidence that government agencies do not protect us on food, EMFs or much else. More on the fall of the US Dollar globally and what's happening to consumer debt here at home. Geoengineering gets airtime on ABC News, proving yet another "conspiracy theory" to be true. Finally, RFK Jr announces his 2023 presidential run, dropping massive truth bombs along the way. Much more in today's edition below.

## Jab & Plandemic News

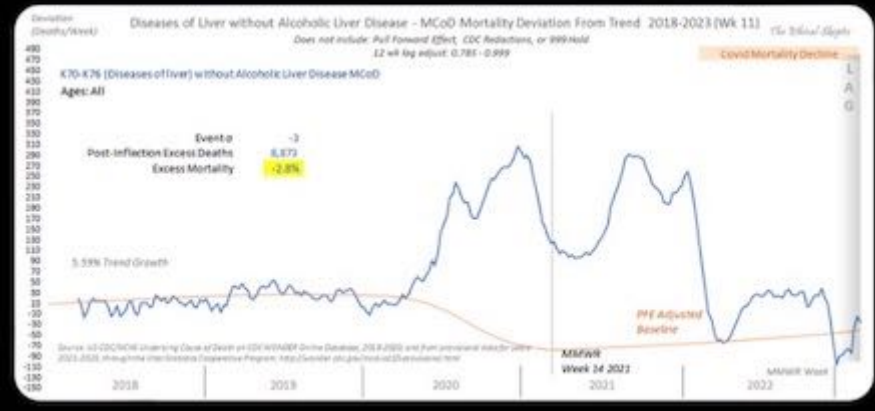

Ethical Skeptic 🌞🔗 @EthicalSkeptic · 2h

A key differentiator. If an excess mortality was caused by Covid/Long Covid, it has long since re-attained PFE-adjusted baseline.

Below, we see Covid killed many with Non-Alcoholic Liver Disease. But that trend has recaptured baseline.

This was not vax, nor lockdown related.

[Click for thread](#)

Ethical Skeptic 🌞🔗 @EthicalSkeptic · 2h

In contrast, all the mortality codes we have surveyed as being potentially associated with the vaccine, are nowhere near a state of re-attaining baseline.

**Mel**  **@Villgecrazylady** **click for detail**

Yesterday the [@US\\_FDA](#) revoked the authorization for all previously licensed Covid vaccines and then cut the dosage by 75% for all new vaccinations using the EUA bivalent vaccine.

If you had taken your 6 year old to get vaccinated against Covid for the first time last month they would have given him a .50 ml shot then made you bring him back 4 weeks later for a second .50 ml shot in order for him to be considered fully vaccinated after 2 weeks. A total dosage of 100 µg in just 4 weeks.

If you took him in today he'd receive a single .25 ml (25 µg) shot and in 2 weeks time he'd be considered fully vaccinated. Where is the data informing this decision?

**FACT SHEET FOR HEALTH CARE PROVIDERS ADMINISTERING VACCINE**

**WARNINGS:** Individuals with a history of severe allergic reaction to any component of the vaccine or to any other vaccine component.

**ADVERSE REACTIONS:** Common adverse reactions include injection site pain, redness, and swelling. Serious adverse reactions include severe allergic reaction.

**HOW TO ADMINISTER:** Intramuscular injection into the deltoid muscle of the upper arm.

**DOSE:** 0.5 mL (0.5 mL) for individuals 12 years of age and older.

**COVID-19 Vaccine Comparison**  
Last updated on July 6, 2022

Three COVID-19 vaccines, Pfizer-BioNTech, Moderna, and Johnson & Johnson (J&J), are available in the United States. A table of key details for each vaccine can be found below, which has evolved over time. This table is not exhaustive.

**Vaccine Administration for Primary Series and Additional Doses**

Vaccine	Primary Series	Additional Doses
Pfizer-BioNTech	Two doses, 3 weeks apart	One additional dose, 6 months after the second dose
Moderna	Two doses, 4 weeks apart	One additional dose, 6 months after the second dose
Johnson & Johnson (J&J)	One dose	One additional dose, 6 months after the first dose

**NEW REVIEW** The Novelty of mRNA Viral Vaccines and Potential Harms: A Scoping Review by @MatthewHalma, @JesslovesMJK and myself has been published. Thank you to my wonderful co-authors!

In this review, we take a look at the platform used in the novel mRNA vaccines, not primarily the expressed antigen. We examine previous studies of RNA-based delivery by a lipid nanoparticle (LNP).

We also call for access to all related study and pharmacovigilance data to be granted to independent data analysts and scientists. Existing findings need to be made widely available and discussed openly, given the initiatives to establish multi-billion dollar mRNA programmes to forever change vaccine strategy.

The notion that the world can be replicated and replaced by a simulated reality says a great deal about the beliefs of those who promote the metaverse. The conception is materialist and mechanistic at base, the hallmarks of social engineering.

### **Your Guide to 5th-Generation Warfare - James Corbett**

The basic idea behind this term [5GW] is that in the modern era, wars are not fought by armies or guerrillas, but in the minds of common citizens. In the war on everyone, the establishment uses every means at its disposal to manipulate the public's perception, including biological, neurological, economic warfare, and more.

I spent like an hour today out on a walk in the sun trying to figure out how to explain solutions to the Woke schools mess that people pretend "school choice" helps, and I barely know where to start. I did a thread about it months ago, but it's not enough.
