Welcome to our **Friday News Edition** with curated news of the day and memes at bottom. Today we feature a number of articles and videos on how the Censorship Industrial Complex has been funded and more recently gone into overdrive to suppress voices like RFK Jr, Marianne Williamson, Tucker Carlson, Matt Taibbi, Sy Hersh, and others. Of course this is not just about the continuing and arguably genocidal health policy fiascos, but about the incessant efforts of the West's War Machine in Ukraine, the Middle East, Africa, and soon Taiwan (and perhaps we'll even see a faked UFO invasion?), and the mind-block by the Expertocracy and their shills in mainstream news to cover the implosion of the financialized economy, the rollout of programmable currency, the increasingly disbelieved climate change/environmental justice hustle, and other inconvenient truths. In Plandemic news, looks like our DNA can be rewritten by the jabs, our blood can become devitalized, bivalent shots are just gimmicks, and cow's milk can be used to deliver mRNA. Bright spots include Australians suing their government over the jabs and mandates, and Canada's National Citizen's Inquiry getting underway, with powerful testimony by funeral home professionals and a damning teach-in on the WHO and their "One Health" initiative by Canadian ex-pat James Corbett. This is just further evidence that the pustule of corruption must emerge from the shadows and pop before We the People can fully manifest something better through efforts at the decentralization and relocalization of food, energy and other goods. All the knowledge and good will we need are at our fingertips, we just need to boldly continue our "quiet revolution" of building our local networks, growing our own food, and minding the well-being of ourselves, our families, neighborhoods and communities. Yes, we can.

Rise Up NH's Monday Zoom Chat - 4.24.23 - AI Threats, RFK Jr's Presidential Bid, Censorship & more. Watch: <https://bit.ly/3HmXqzQ>

Yes, we shall overcome!

Vaccinated Through the Food Supply: They're Growing COVID Vegetables As We Speak

"We've seen a study out of China where they injected a cow with mRNA vaccines. And it transmitted, and they gave that cow milk to mice, humanized mice. And those mice were vaccinated," reported attorney @RenzTom.

"And in fact, a company named Medicago is actually growing COVID vegetables as we speak. They've been approved in Canada, and they were growing them in San Diego. So I mean, this is a real thing."

Organic Produce in Acworth

- Garden access will be run as a P. M. A.
- The details are still being worked out and adjustments will be made as necessary, but the newly-established gardens will be planted this spring with a variety of vegetables. Some medicinal herb plant starts will be available as well.
- Initially either “pick your own” or order ahead to have produce ready for pick-up.

Events

Kensington Cell Tower Conversations - May 2 * May 17

The Kensington zoning and planning boards approved a cell tower at 184 South Road (Rt. 107). We were recently informed this is zoned residential, not commercial. On March 15, 2023, the zoning board also approved a variance that allows a cell tower to be installed in a residential zone at 70 Moulton Ridge Road. The current Kensington zoning ordinance article V section 5.1.5.2 does not allow this. For this and many other reasons, our concerned citizens group is contacting Kensington residents regarding the expansion of the telecommunication network in to residential and agricultural zones.

Harvard Scientist Exposes Cia Mind Control Weapons Still Being Used Today | Len Ber & Robert Duncan

Leonid "Len" Ber received his MD degree in the former USSR where he specialized and practiced as an endocrinologist. Len is one of the few US civilians to ever be officially diagnosed with Havana syndrome. Robert Duncan is a renaissance educated man from Harvard & M.I.T with a focus on medical sciences, engineering, computer science and more specifically genetic algorithm optimizations of neural networks. He has worked on projects for DARPA, the CIA, the Navy, and Army.

143 minutes (see time-stamped outline in show notes):

The A.I. Dilemma

A clear and sobering presentation about how existing A.I. capabilities already pose catastrophic risks to a functional society, how A.I. companies are caught in a race to deploy as quickly as possible without adequate safety measures, and what it would mean to upgrade our institutions to a post-A.I. world. With Tristan Harris and Aza Raskin, the creators of the movie, The Social Dilemma. (This is not even about artificial general intelligence).

Wide Awake Media @wideawake_media · Apr 26 ·

CO2 makes up 0.04% of the atmosphere currently (25 times less than 1%).

Humans contribute just 3% of that. 3% of 0.04% is 0.0012% (833 times less than 1%).

Which means that, if we stopped human carbon emissions completely, it would make 833 times less than 1% of a difference to... [Show more](#)

On War and Wars - James Howard Kunstler

The weird part the news media isn't telling you about World War Three is that America's main enemy in this struggle is the US Government itself. America is looking like that crazy person

on the street, punching himself in the head. How else do you explain this epic act of national self-destruction?

Culture Wars

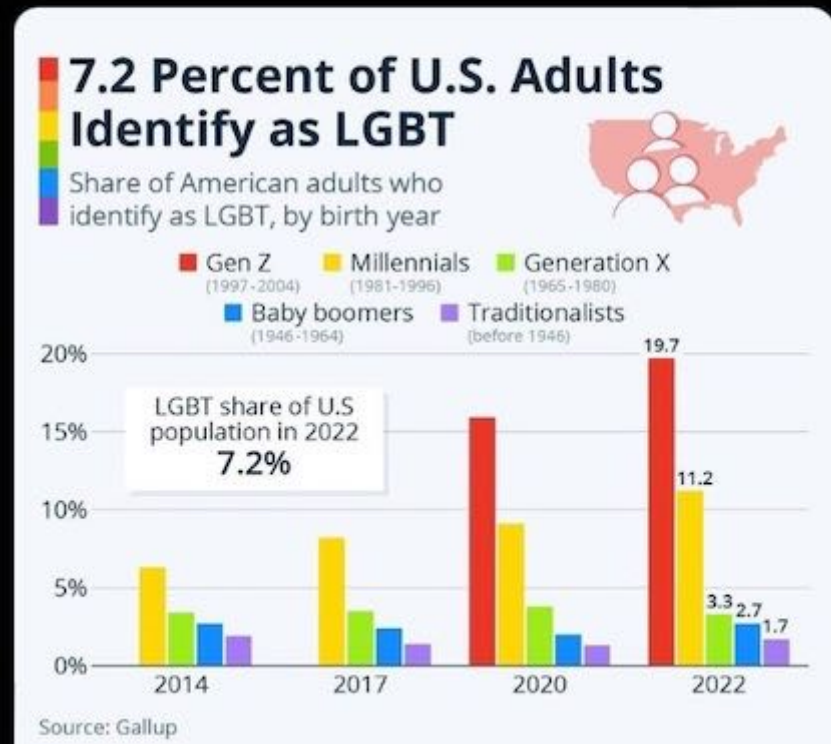

Gays Against Groomers @againstgroomers · 6h

If the reason for the explosion in people who identify as "LGBTQ" is because of social acceptance, then why is the increase most dramatic in Gen Zs?

What about all those repressed Gen Xers?

It's because they're kids, and being trans is a trend. Kids always fall for trends.
