Welcome to our **Friday News Edition** with curated news of the day and memes at bottom. Big news comes from the Durham Report that told us what we've known for years: our government is corrupt all the way up and down, the rule of law is dead, and there are no more checks and balances keeping government agencies and politicians honest or our rights protected. If you try to tell the truth, the media lambastes you, social media companies deplatform you, email services block your newsletters, the actually radical elements of society cancel you, and the surveillance state tracks and labels you for having heterodox views, being a conservative, a Christian, and so on. Take the warning from the FBI whistleblowers who testified this week and whose lives have been made a living hell by the system that was supposed to protect them.

The DNC, supported by the mainstream media, has now decided for the entire country who can and cannot run for president, making sure Biden will never have to debate even a fifth grader. The FDA and WHO keep pushing vaccines despite their proven dangers, and the Bilderberg Group meets again to discuss the next insane idea they'll push on humanity. Even though public data keeps showing climate change claims to be false, Kerry just announced the US government may seize farms "because nitrogen." Used to be the government actors would dress up their malicious acts in nice-sounding doublespeak, but now they just strut around as naked emperors, impervious to criticism, beyond the reach of the law or of voters.

Thankfully, more and more people are in "eyes open, no fear" mode, and are not deceived one iota. We're building connections with like-minded others, creating community, and offering alternatives to a dying system during the end times of the US Empire. We know what love is, we know what health is, we know what truth is, we know what freedom is, and we are keeping our eyes and hearts on the light at the end of this tunnel.

Check out our second episode! **The New Commons: Navigating Conflict With Nonviolent Communication**, features an interview with Kristen Reynolds on the importance of compassionate/nonviolent communication for creating safe and respectful spaces for dialogue and for resolving tensions in relationships. ### Disturbing Discovery: Dr. Meryl Nass Uncovers the DTaP Vaccine's 'Dirty Secret'

"If you compare those two vaccines [Infanrix vs. Boostrix] ... you will find that babies are given much higher doses of the antigens. A two-month-old baby is given ten times as much Diphtheria Toxoid as an adult gets, three times as much Pertussis Toxoid, three times as much FHA, [and] three times as much Pertactin," shared @nassmeryl.

"Now, those are both GSK, GlaxoSmithKline vaccines. So Glaxo knew what it was doing ... Why would you give so much more to a two-month-old than to an adult?"

**click to watch (1.5 min)**

Dr. Nass asks: What is the justification for injecting babies and young children with extremely high toxin levels which expose them to increased risk of harm?

The climate hoax debunked:

1. Recent warming has occurred step-wise.
2. El Ninos have driven all the steps. Not emissions.
3. In between El Ninos, there is no warming despite lots of emissions.

## Paradigm Expanding

Germ Theory is Incomplete | Part 1 - Remnant MD

In academia, germ theory is taught as the de facto perspective from which to interpret infectious disease. But, how well does germ theory account for real-world observations?

### **Wolfgang Smith: Beyond Scientism and Non-Dualism [Part 1] - w/ Curt Jaimungal**

On interpretations of quantum mechanics, the distinction between corporeal and physical reality, vertical causation, and irreducible wholeness. Smith argues that the assumptions of scientism are false and that it is therefore a dangerous and misleading ideology. He believes that science can only provide a partial and incomplete understanding of reality, and that we need to look to other sources, such as philosophy and religion, to gain a fuller understanding of the world. Smith graduated from Cornell University at age 18 with degrees in physics, mathematics, and philosophy. In his life he's published extensively on mathematics, pioneered crucial advances in aerodynamics, rallied against the metaphysical assumptions of scientism, and met with Vedic masters.

## To Catch Up On Today's News, Man Just Reads 2-Year-Old Posts On Conspiracy Blog

U.S. · Feb 27, 2023 · BabylonBee.com

BISMARCK, ND — According to sources, local man and news connoisseur Dave Rorsh has begun keeping track of the daily news by just looking up 2-year-old posts on obscure conspiracy theory blogs.

"When I did some research, I realized all the conspiracy theorists were exactly two years ahead of the media in reporting the facts," said Rorch while pulling up IlluminatiWatch.com and searching old posts for current updates on politics, culture, and international affairs. "This is so much easier than looking at CNN and Fox News!"

**"And that is why climate change is causing people to die suddenly"**

msnbc | CNN | abc | NBC | The New York Times

A photograph of a person standing in front of a large chalkboard filled with complex mathematical equations and diagrams. The person is wearing a dark shirt and is gesturing towards the board. The board is covered in various mathematical formulas, including differential equations, integrals, and geometric diagrams. The person is standing in front of the board, and the board is filled with mathematical content.

Symptoms of 'climate change':

1. Myocarditis
2. Blood clots
3. Heart attacks
4. Guillian-Barre
5. Bells Palsy
6. Miscarriage
8. Pericarditis
9. Memory loss
10. Sudden death

The FBI had sex tapes of Democrat mayors sleeping with a Chinese spy and kept them hidden, knew Eric Swalwell was sleeping with a Chinese spy and kept it hidden, had Hunter Biden's laptop and kept that hidden, but leaked a dossier that they knew was **fake** to the New York Times in an effort to take down Trump.
