Welcome to our **Friday News Edition** with curated news of the day and memes at bottom. News this week: a group of folks from RiseUp met with someone from Savings Bank of Walpole (SBoW) yesterday, to see what they knew of CBDCs (a word my speech-to-text tool can never get right). Turns out they didn't know as much as we do. So we shared our perspectives, gave them [some resources](#), and got them to agree to look into it further and get back to us. SBoW is a mutual bank and not subject to shareholders, which made some good decisions over the past few years regarding long-term securities, and so has fared much better than other banks of late. But this does not mean they'd not be endangered by the move to a digital dollar. This week we feature a lot of videos exploring the onrush of the FED's and IMF's digital money, which is coming faster than most realize. Some even say it's unlikely to be accepted in the US, which has a more diverse banking system than many countries. Other are saying the FED is actively working to kill the dollar as a pretext for rolling out the CBDC. What's clear is that it's part of the Control-Everything-Grid that has long been the wet dream of the likes of the Bilderberg conspirators, whose meeting took place in Portugal last week.

On this past Monday's zoom, our guest was **Larisa Trexler of Health Freedom NH**, discussing the film *Spellers*, and sharing the latest from the health freedom initiatives and bills in our state. Watch the recording here:

WHO - Listen carefully to Rob Roos. A Dutch politician.

He explains that the WHO is controlled by global pharmaceutical companies including Bill Gates, no one voted for them to become the most powerful organisation on earth.

But it's happening! **click to watch (3 min)**

Mislav Kolakusic MEP @mislavkolakusic

The World Health Organization should be declared a terrorist organization because of the damage it has caused and the lies it has spread. Today, it would be safer to sign contracts with the Colombian drug cartels than with the WHO.

THE TOP TEN REASONS TO OPPOSE THE AMENDMENTS TO THE INTERNATIONAL HEALTH REGULATIONS

- 1. CHANGE FROM ADVISORY TO MANDATORY:** Change the overall nature of the World Health Organization from an advisory organization that merely makes recommendations to a governing body whose proclamations would be legally-binding. (Article 1 and Article 42)
- 2. POTENTIAL RATHER THAN ACTUAL EMERGENCIES:** Greatly expand the scope of the International Health Regulations to include scenarios that merely have a "potential to impact public health." (Article 2)
- 3. DISREGARD FOR DIGNITY, HUMAN RIGHTS AND FREEDOMS:** Seek to remove "respect for dignity, human rights and fundamental freedoms of people." (Article 3)
- 4. ALLOCATION PLAN:** Give the Director General of the WHO control over the means of production through an "allocation plan for health products" to require developed states parties to supply pandemic response products as directed. (Article 13A)
- 5. MANDATORY MEDICAL TREATMENTS:** Give the WHO the authority to require medical examinations, proof of prophylaxis, proof of vaccine and to implement contact tracing, quarantine and TREATMENT. (Article 18)
- 6. GLOBAL HEALTH CERTIFICATES:** Institute a system of global health certificates in digital or paper format, including test certificates, vaccine certificates, prophylaxis certificates, recovery certificates, passenger locator forms and a traveller's health declaration. (Articles 18, 23, 24, 27, 28, 31, 35, 36 and 44 and Annexes 6 and 8)
- 7. LOSS OF SOVEREIGNTY:** Would empower the Emergency Committee to override decisions made by sovereign nations regarding health measures and would make the Emergency Committee's decisions final. (Article 43)
- 8. UNSPECIFIED, POTENTIALLY ENORMOUS FINANCIAL COSTS:** Redirect unspecified billions of dollars to the Pharmaceutical Hospital Emergency Industrial Complex with no accountability. (Article 44A)
- 9. CENSORSHIP:** Greatly expand the World Health Organization's capacity to censor what they consider to be mis-information and dis-information. (Annex 1, page 36)
- 10. OBLIGATIONS OF DUTY TO COOPERATE:** Creates an obligation to build, provide and maintain IHR infrastructure at points of entry. (Annex 10)

World Health Organization

The proposed amendments would:

1. Change the overall nature of the World Health Organization from an advisory organization that merely makes recommendations to a governing body whose proclamations would be legally-binding. (Article 1)
2. Greatly expand the scope of the International Health Regulations to include scenarios that merely have a "potential to impact public health."
3. Seek to remove "respect for dignity, human rights and fundamental freedoms of people." (Article 3)
4. Give the Director General of the WHO control over the means of production through an "allocation plan for health products" to require

7. Redirect unspecified billions of dollars to the Pharmaceutical Hospital Emergency Industrial Complex with no accountability. (Article 44A)
8. Allow the disclosure of personal health data. (Article 45)
9. Greatly expand the World Health Organization's capacity to censor what they consider to be mis-information and dis-information. (Annex 1, page 36)
10. Create an obligation to build, provide and maintain IHR infrastructure at points of entry. (Annex 10)

The 76th World Health Assembly is scheduled to occur from Sunday May 21, 2023 to Tuesday May 30, 2023. In order for the proposed amendments to be considered during the 76th World Health Assembly, they must be submitted to the World

From RebuildNH:

SOE Reform Stripped from Budget

After I sent the email yesterday, I learned that the amendment had already been adopted. Unfortunately updates about budget amendments are not available on the website like they are for other amendments, so we are relying on word of mouth. But it has been confirmed that the amendment that removed the state of emergency reform from the budget was adopted on April 26th.

Please refer to RebuildNH's previous email for details about what the bill does.

Take Action

Now that the amendment has been passed, I'm changing course slightly.

Please call Senator Carson and Senator Gray and tell them that amendment 2023-1389s needs to be reconsidered. Deadline for them to act on the budget is June 8th, so they need to reconsider soon.

The newspaper that endorsed extended lockdowns, school closures, child masking, mass testing, mask and vaccine mandates, while demonizing the noncompliant all along the way, now says there's no one to blame for what happened during COVID.

No. Amnesty.

Pfizer donations to universities in 2021, of course, had no influence on those universities' Covid-19 vaccine guidance.

Pfizer 2021 Donations to Universities	Amount
Rutgers State University	\$ 1,944,101
John Hopkins University	\$ 923,525
Boston University	\$ 914,575
University of New Mexico	\$ 900,000
University of California	\$ 612,496
Purdue University	\$ 563,200

It's very simple to prove that the US response to COVID was completely inept. There are >50,000 unvaccinated Amish in Lancaster, PA. I will pay \$2,500 to the first person who can prove there were **more than 5 of them who died from COVID from 2020 to the present**. You have to post individual names and evidence they died from COVID and were fully unvaccinated.

This is not a trick contest. There were a few fully unvaccinated (no vaccines of any type) Amish who died from COVID. **But I was not able to find more than 5.**

This paper found **3 COVID deaths of Amish in the entire US** (see plainanabaptistjournal.org/index.php/JPAQ). **Click for more**

rief illness" and another 9% indicated a "lengthy illness" as cause of death. It should be noted that COVID was only mentioned three times in the obituaries section of Amish deaths from 2014 through 2021. The report of one death in Ohio in October 2020 listed the person had COVID and pneumonia. One death in December 2020 in Kentucky and one death in November 2020 in Indiana listed COVID as the cause of death.

The Amish would like you to know you've been fooled:

"I do know where I live they are private people. But they sure do still talk with each other and mingle in the community. I spoke w my chiropractic friend. He's been treating the local amish here for 12 years. Didn't even as much as report any covid. Let alone deaths. Generally they are healthy people. They would def be able to fight a sniffle /flu etc. He did also say he hasn't seen one case of autism. Not one. They do not vaccinate at all."

if vaccines don't cause autism, you'd have to explain which one of the five Bradford Hill criteria is NOT satisfied. I claim nobody can do that. Which means they are toast. They've been lying about this for 25 years.
Consistency. The association of a purported adverse event with the administration of a vaccine should be consistent, i.e. the findings should be replicable in different localities, by different investigators not unduly influencing one another, and by different methods of investigation, all leading to the same conclusion(s).
Strength of the association. The association should be strong in the magnitude of the association (in an epidemiological sense), and in the dose-response relationship of the vaccine with the adverse effect.
Specificity. The association should be distinctive, the adverse event should be linked uniquely or specifically with the vaccine concerned, rather than its occurring frequently, spontaneously or commonly in association with other external stimuli or conditions.
Temporal relation. There should be a clear temporal relationship between the vaccine and the adverse event, in that receipt of the vaccine should precede the earliest manifestation of the event or a clear exacerbation of an ongoing condition. For example, an anaphylactic reaction seconds or minutes following immunization would be strongly suggestive of causality; such a reaction several weeks after vaccination would be less plausible evidence of a causal relation.
• **Biological plausibility.** The association should be coherent; that is, plausible and explicable biologically according to known facts in the natural history and biology of the disease.
