Welcome to our **Friday News Edition** with curated news of the day and memes at bottom. "The Great Gaslight" captures the attempt by increasing numbers of government functionaries to tell us that they didn't do what we know they did - mandate lockdowns, school closures, vaccines and the like, but LOL, the rats are running because the truth is cracking through the cement. Game Soon Over. (As usual, JH Kunstler captures the zany zeitgeist with his post today "[Pretend to the End](#).") Other elements of the Great Reset plan continue on, as more banks fail and the war on cryptos advances, creating the perfect conditions for a digital cash rollout. In politics, Dems deny debates while Biden's prospects for re-election tank amidst further revelations of corruption and election interference, and the J6 "Insurrection" narrative lumbers on its last legs (loving alliteration :-). There is plenty of uplifting news, from Collier County's (FL) recently passed Health Freedom Bill of Rights and the ending of vax mandates by the Biden Administration, to final nails in the Pfizer "safe and effective" coffin and a green hydrogen generation facility opening in NH -- plus more solid evidence that the climate change narrative is a scam.

On this past Monday's zoom chat, we celebrated May (real spring) by sharing gratitude for our community, and we got an update on the cell tower install and pushback in Keene. Watch now: <https://bit.ly/3M0XE2i> (passcode: 1pa..vkT).

Organic Produce in Acworth

- Garden access will be run as a P. M. A.
- The details are still being worked out and adjustments will be made as necessary, but the newly-established gardens will be planted this spring with a variety of vegetables. Some medicinal herb plant starts will be available as well.
- Initially either “pick your own” or order ahead to have produce ready for pick-up.

Kensington Cell Tower Conversations - May 17

The Kensington zoning and planning boards approved a cell tower at 184 South Road (Rt. 107). We were recently informed this is zoned residential, not commercial. On March 15, 2023, the zoning board also approved a variance that allows a cell tower to be installed in a residential zone at 70 Moulton Ridge Road. The current Kensington zoning ordinance article V section 5.1.5.2 does not allow this. For this and many other reasons, our concerned citizens group is contacting Kensington residents regarding the expansion of the telecommunication network in to residential and agricultural zones.

Re-Opening Mockumentary

"Re-Opening" is a hilarious mockumentary that uses humor to poke fun at the over-the-top COVID restrictions small businesses were forced to contend with during the pandemic. The film brilliantly satirizes the insanity that swept the nation throughout 2020 and the years that followed — and does it in a heartwarming manner that will leave you not just laughing but feeling like there's still hope in a world that went full on crazy.
