NH Legislation

From RebuildNH:

State of Emergency Reform Wins!

HB 2, the budget policy trailer bill, has passed both chambers and heads to the Governor's desk. The bill contains the state of emergency reform language we have tried to pass for 3 years.

State of emergencies will never been indefinite again.

Thank you to everyone who helped make the calls, write the emails, and attend the hearings. It was a tough term, but we managed to kill some bad legislation, pass state of emergency reform, and pass HB408, which provides necessary vaccine exemptions for foster families.

On the stupidity of carbon capture technology

Greenpeace co-founder, Dr. Patrick Moore:

"The scientific method has not been applied in such a way as to prove that carbon dioxide is causing the Earth to warm... I am firmly of the belief that the future will show that this whole hysteria over climate change was a complete fabrication."

Ukraine, False Flags & Globalist Militarism

The immense Noam Chomsky was given a whole 8 minutes on Piers Morgan to explain how the US is provoking China into war, and he does a brilliant job at it.

An absolute must-watch if you want to understand what's happening.

He explains how the US is 1) "abandoning the One-China policy" that has "held the peace in the region for 50 years", 2) increasingly "encircling China with a ring of sentinel states armed with advanced precision weapons aimed at China" and 3) waging "a war to prevent China from developing", all the while gaslighting the world into believing it's China that's changing the status quo.

Isn't it amazing how the United States can drop bombs on Syria, illegally occupy Syria, steal Syria's oil and scream about Ukraine's sovereignty at the same time?

Absolutely revolting scenes out of Boston pride today. Young children watch as a group of BDSM fetishists walk by in bondage gear and pup masks.

How dare any parent subject their kids to this. It should be a crime.

'Leave the kids alone!' The largest protest against gender ideology in Canadian history - True North

Hundreds of parents and students gathered peacefully to oppose radical gender ideology and indoctrination in Canada's schools last Friday. Despite the counter protesters trying their best to disrupt and impede the rally, and label the group as "transphobic fascists," that didn't stop people from all racial and ethnic backgrounds from uniting in their calls to rid gender ideology from education. With interviews.

ECO TERROR FOR CLIMATE CHANGE AGENDA 2030

The fewer people believe the "climate change" scam the more they will use eco-terror events to create the illusion it's real

just sayin'... :

In the United States, a couple of decades ago when leftists were a minority in our universities, leftist professors were vigorous proponents of academic freedom, but today, in those of our universities where leftists have become dominant, they have shown themselves ready to take away from everyone else's academic freedom. This is "political correctness." The same will happen with leftists and technology: They will use it to oppress everyone else if they ever get it under their own control.

Field Report #26157: It has been 116 days since I infiltrated the group chat. Their primary focus seems to be offering encouragement to each other in the form of self-improvement via exercise, nutrition, and home gardening. They post about potatoes. A lot. Potato yields, potato memes, potato recipes ad nauseum. In a moment of frustration last week I even admitted to them that I was a federal agent whose goal was to incite a domestic terrorism event and they just laughed and said "we are all feds lmao". I fear I am losing the will to live.
