Welcome to our **Friday News Edition** with curated news of the day and memes at bottom. This week features more truth drips, drops and bombs -- on vax adverse events, ingredients and efficacy; on Remdesivir; on tetanus shots, on the war on cryptos; on wokeism's tactics; on the lies around Russia and the Ukraine. All of which is probably why the controllers are sounding so shrill of late! Not to worry, they're promising another pandemic right soon!

Pull on one thread in the controllers' crazy narrative and their whole tapestry might just come unwoven. Thankfully, that seems to be happening. That's why we always include news and resources across the spectrum of domains that characterize our public life: health and medicine, free speech, politics, money, war, culture wars, EMFs, education, the creeping technocratic state, and much more. It's all connected!

The New Commons - Ukraine: Pawn in a Geopolitical Tug of War

On this week's episode of The New Commons, John-Michael and Johanna interview Sarah Wilton, a former naval intelligence officer and current member of Veteran Intelligence Professionals for Sanity (<https://tinyurl.com/mufrwu2a>). We discuss Ukraine, dropping some "inconvenient truth bombs" on the official narrative. What do I mean by staying sane?

- To hold center, and return to it when you lose it
- To hold a good and true story of self and world
- To be able to abide in not-knowing for as long as it takes for authentic knowing to emerge
- To hold peace amid information warfare
- To distinguish and hold your truth in the midst of hysteria
- To build sustaining connections with human and other-than-human beings, to have an ongoing experience of kinship.
- To build resistance to manipulation and covert fundamentalism
- To access a wholesome wellspring of sense, meaning, and identity
- To fortify the integrity of body/mind/spirit
- To mutually reinforce all of these with others, to form islands of sanity in a world that is still far from sane
- To be a seed crystal that brings a higher level of sanity to all you touch

Staying Sane in the Next Five Years - Charles Eisenstein, The Sanity Project

A far-ranging speech of dizzying heights and depths. Charles speaks of a shift of timelines, the candidacy of Robert F. Kennedy, Jr., the collapse of the old story, sanity and madness, vengeance and redemption, synchronicity and will, and the songs of birds.

“Who Can You Trust?” by James Howard Kunstler

JHK discusses the issue of trust in the United States and how it has been eroded over time. The author argues that people can no longer trust distant authorities like the WHO or the US federal government, especially the executive branch behind “Joe Biden”. The trust horizon is shrinking just as the world is de-centralizing. This is the main contradiction behind all the Globalist’s twisted ambitions to control everything.

NH Legislation & Political Action

From RebuildNH:

RebuildNH SOE Report 5/30

State of Emergency Reform Success

This afternoon, state of emergency reform was added back into the budget in the Senate. Thank you to everyone who took the time to call and email about this important issue!

Next Steps

Let's not count our chickens before they are hatched... the budget now heads to the Senate for a vote of the full body. Assuming it makes it through that process with state of emergency reform intact, it goes to the House for a vote to concur. While today was a positive step, we are still far from the finish line.

As always, I will keep you updated on this key piece of RebuildNH supported legislation.

effects. However, emerging evidence suggests that the reported increase in IgG4 levels detected after repeated vaccination with the mRNA vaccines may not be a protective mechanism; rather, it constitutes an immune tolerance mechanism to the spike protein that could promote unopposed SARS-CoV2 infection and replication by suppressing natural antiviral responses. Increased IgG4 synthesis due to repeated mRNA vaccination with high antigen concentrations may also cause autoimmune diseases, and promote cancer growth and autoimmune myocarditis in susceptible individuals.

The symptoms of 5g radiation poisoning resembles those of Covid-19. Were conductive materials used in the vaccine to interact radioactively w/ 5g? Causing worse symptoms? Some claim graphene oxide is in them, but I'm not sure.

Grigoriev refers to studies showing harmful effects of 5G millimetre waves (MMWs). They include:

- demyelination of nerve cells
- changes to cell membranes, including changes to ion channels
- inhibition of cell cycle progression
- changes to levels of enzyme and proteins in the brain's hippocampus
- double-strand breaks in DNA
- effects on reproduction
- changes to the sensitivity of the skin

- effects on peripheral and central nervous systems
- effects on the hypothalamus and pituitary glands and changes to cortisol and testosterone hormones
- changes to heart rate
- changes to immune function
- degranulation of mast cells in the skin (that can cause allergic-type symptoms)

Grigoriev says that individuals react differently to exposure and this can make it difficult for observers to draw conclusions and can lead to errors in assessing the impacts of radiation.

Undreaming Wetiko: Breaking the Spell of the Nightmare Mind-Virus

Book release video with author Paul Levy. "In exposing this psychic counterfeiting operation, this book is outing the biggest psyops in the history of the world, an order of magnitude bigger than any psyops that people think might (and may actually) be taking place in our world's body politic. This psyops is taking place within our very minds, and in our unknowing collusion with this operation we are the ones who are perpetrating this nightmare upon ourselves." Wetiko is a Native American term for a destructive spirit that can possess individuals and groups. It is a force that can take hold of people's minds and hearts, leading them to act in destructive ways. Wetiko can manifest itself in many different ways, including violence, addiction, greed, and environmental destruction.
