### **Self-Reliance in the 21st Century - Book by Charles Hugh Smith**

Self-reliance is often confused with self-supporting (making enough money to support yourself) and self-sufficiency—the equivalent of Thoreau's cabin on Walden Pond. But self-reliance in the 21st century isn't about piling up money or a cabin in the woods; it's about humanity's most successful innovation: cooperating with trustworthy others in productive networks. This book explores the mindset of self-reliance and 18 principles that advance self-reliance in the 21st century.

Book release video with author Paul Levy. "In exposing this psychic counterfeiting operation, this book is outing the biggest psyops in the history of the world, an order of magnitude bigger than any psyops that people think might (and may actually) be taking place in our world's body politic. This psyops is taking place within our very minds, and in our unknowing collusion with this operation we are the ones who are perpetrating this nightmare upon ourselves." Wetiko is a Native American term for a destructive spirit that can possess individuals and groups. It is a force that can take hold of people's minds and hearts, leading them to act in destructive ways. Wetiko can manifest itself in many different ways, including violence, addiction, greed, and environmental destruction.
