Welcome to our **Friday News Edition** with curated news of the day and memes at bottom.

The big emerging news this week centers around the revelations of a whistleblower alleging that the Pentagon has been reverse-engineering nonhuman craft/UAP/UFOs for many decades, and has even recovered bodies. Is this the next shiny thing, more worrisome than the endless fires and breaking economies? Is this a step towards the false flag that was warned about by Werner von Braun, the NASA Project Paperclip scientist? Wherever you fall on the question of the reality of UFOs or off-world/underground intelligences, it's important to understand the emergent context of this long battle for disclosure of the UFO phenomenon and of suppressed advanced technologies, especially in light of what is going on in our world right now. My take is that this whistleblower's testimony makes it somewhat less likely that we will see a Project Blue Beam-style false flag aimed at enabling the ultimate fear-and-control agenda, because it undermines the claims of innocence made by the military via their long suppression and disinformation campaign. IMO, the disclosure will make people much more skeptical of a government which has been lately earning skepticism in spades. What is the ultimate truth? You decide. See our special section below dedicated to the topic.

On Monday's Zoom we discussed Ukraine and propaganda, the Plandemic III movie, and Becky shares lots of info on Methylene Blue as a health- and cognition-boosting agent.

"CITIZENSHIP 1928" is a review of the War Department Technical Manual 2000-25, Citizenship. This manual was originally authorized on 30 November 1928, as ordered by the US Government War Department. It was printed in April of 1929 by the US Government Printing Office. Democratic members of Congress believed it to contain controversial material, which led to the manual being recalled and withdrawn from use within four years of publication.

From RebuildNH:

State of Emergency Reform Wins!

HB 2, the budget policy trailer bill, has passed both chambers and heads to the Governor's desk. The bill contains the state of emergency reform language we have tried to pass for 3 years.

State of emergencies will never be indefinite again.

Thank you to everyone who helped make the calls, write the emails, and attend the hearings. It was a tough term, but we managed to kill some bad legislation, pass state of emergency reform, and pass HB408, which provides necessary vaccine exemptions for foster families.

"Very little is known about what it's like on the surface," Musk said in a brief statement to the media announcing the landing. "Is the environment hospitable to humans? Are there life forms present? These are important questions we are hoping to answer."

and try to be intellectually humble.

5 I will also try to be reasonable, rational,
and create coherent arguments.

6 I may challenge ideas, but will refrain from
personal attacks and mean-spiritedness.

7 I will use the 'Principle of Charity' to interpret
others' points of view in the best light.

8 I promise to remain genuinely receptive to
changing my mind.
